DUGOUT'S ALBERTA ADVENTURE

DUGOUT MEETS FIELDER

A LITTLE LEAGUE® BASEBALL COLOURING BOOK

As Dugout's plane soared into the clouds, he waved goodbye to Williamsport, Pennsylvania, and set course for Edmonton, the capital of Alberta. A new adventure awaited him—starting with a very special introduction!

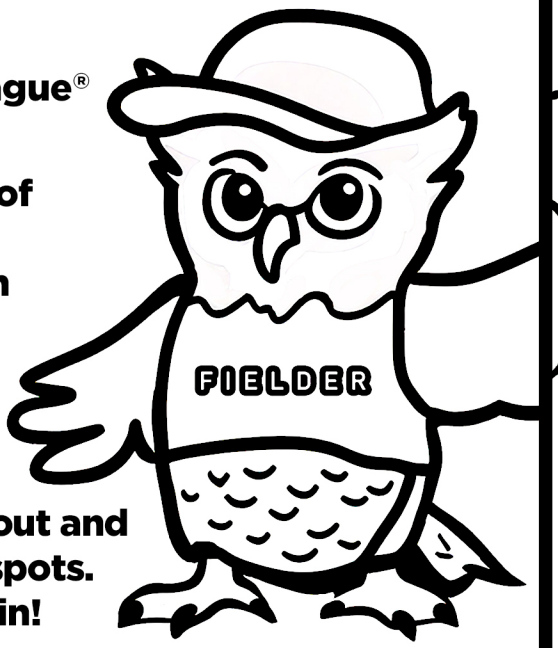

INTRODUCING

Fielder the Owl, the mascot of Little League® Alberta Baseball!

As a great horned owl—the official bird of Alberta—he's built for baseball. With super-sharp eyesight, he can track down and catch any fly ball, and thanks to his silent flight, he can steal bases before the pitcher even realizes he took off!

Fielder is standing by at Edmonton International Airport, ready to meet Dugout and show him some of Alberta's most iconic spots. Turn the page to see their adventure begin!

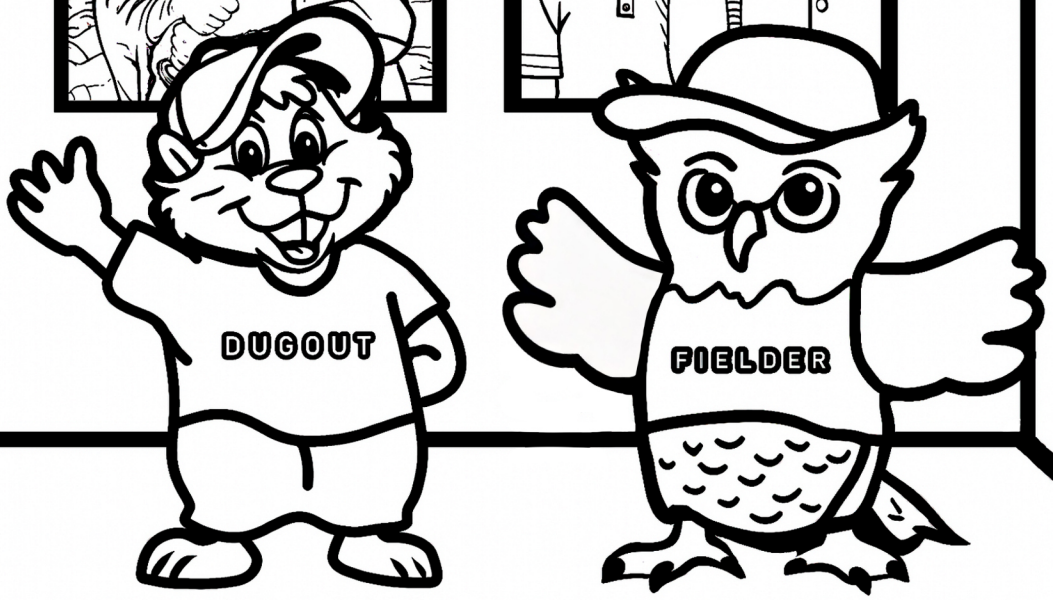

Dugout landed in Edmonton, where Fielder welcomed him. He had plenty to show Dugout, starting with their first stop—the Art Gallery of Alberta, where, by an amazing coincidence, a baseball-themed exhibit was on display!

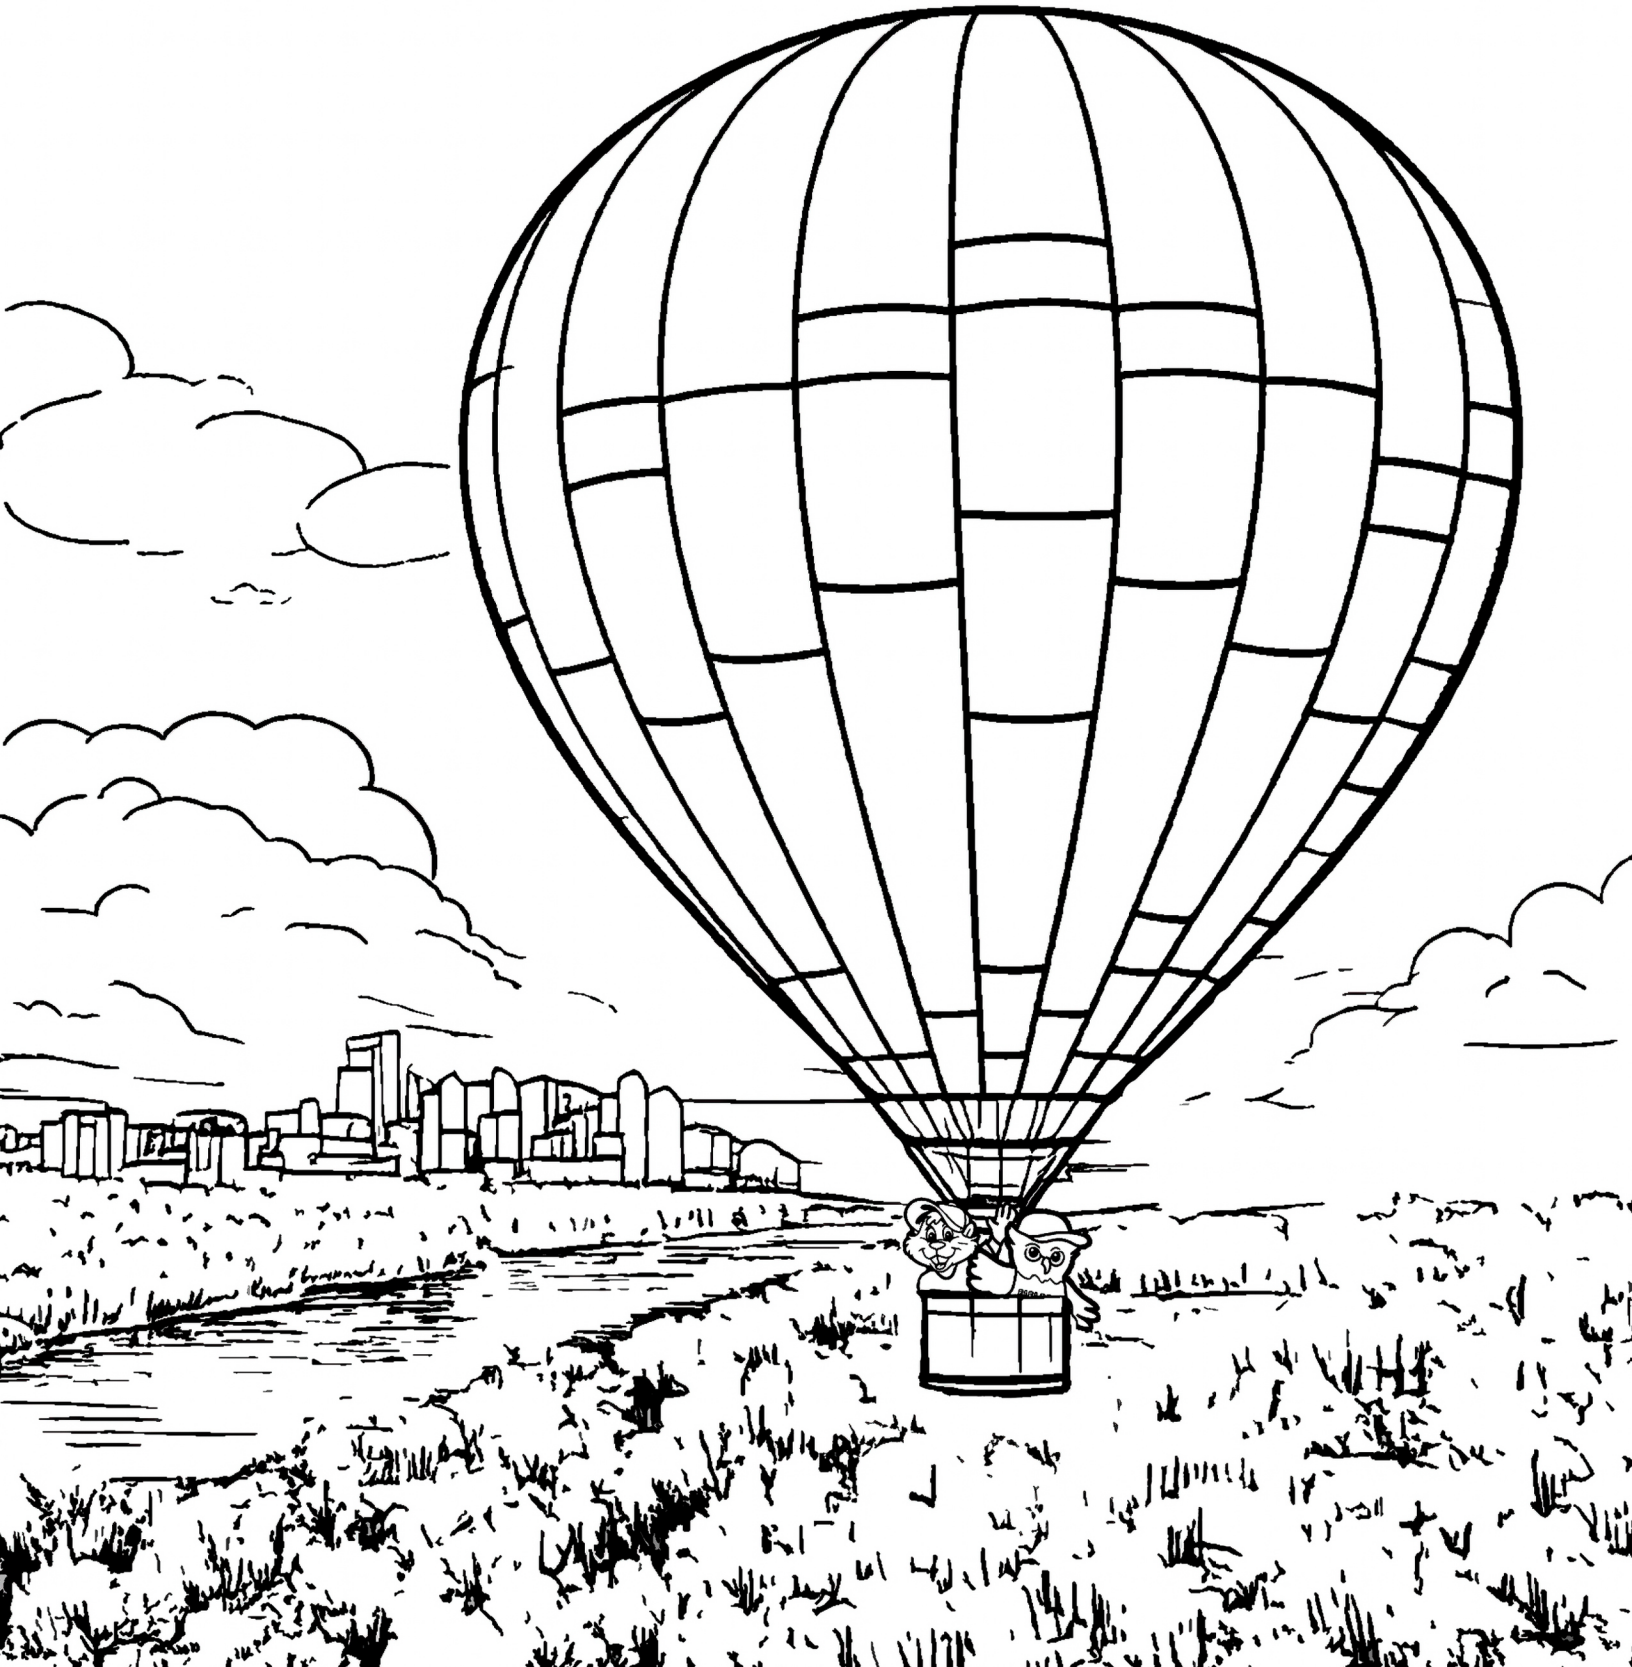

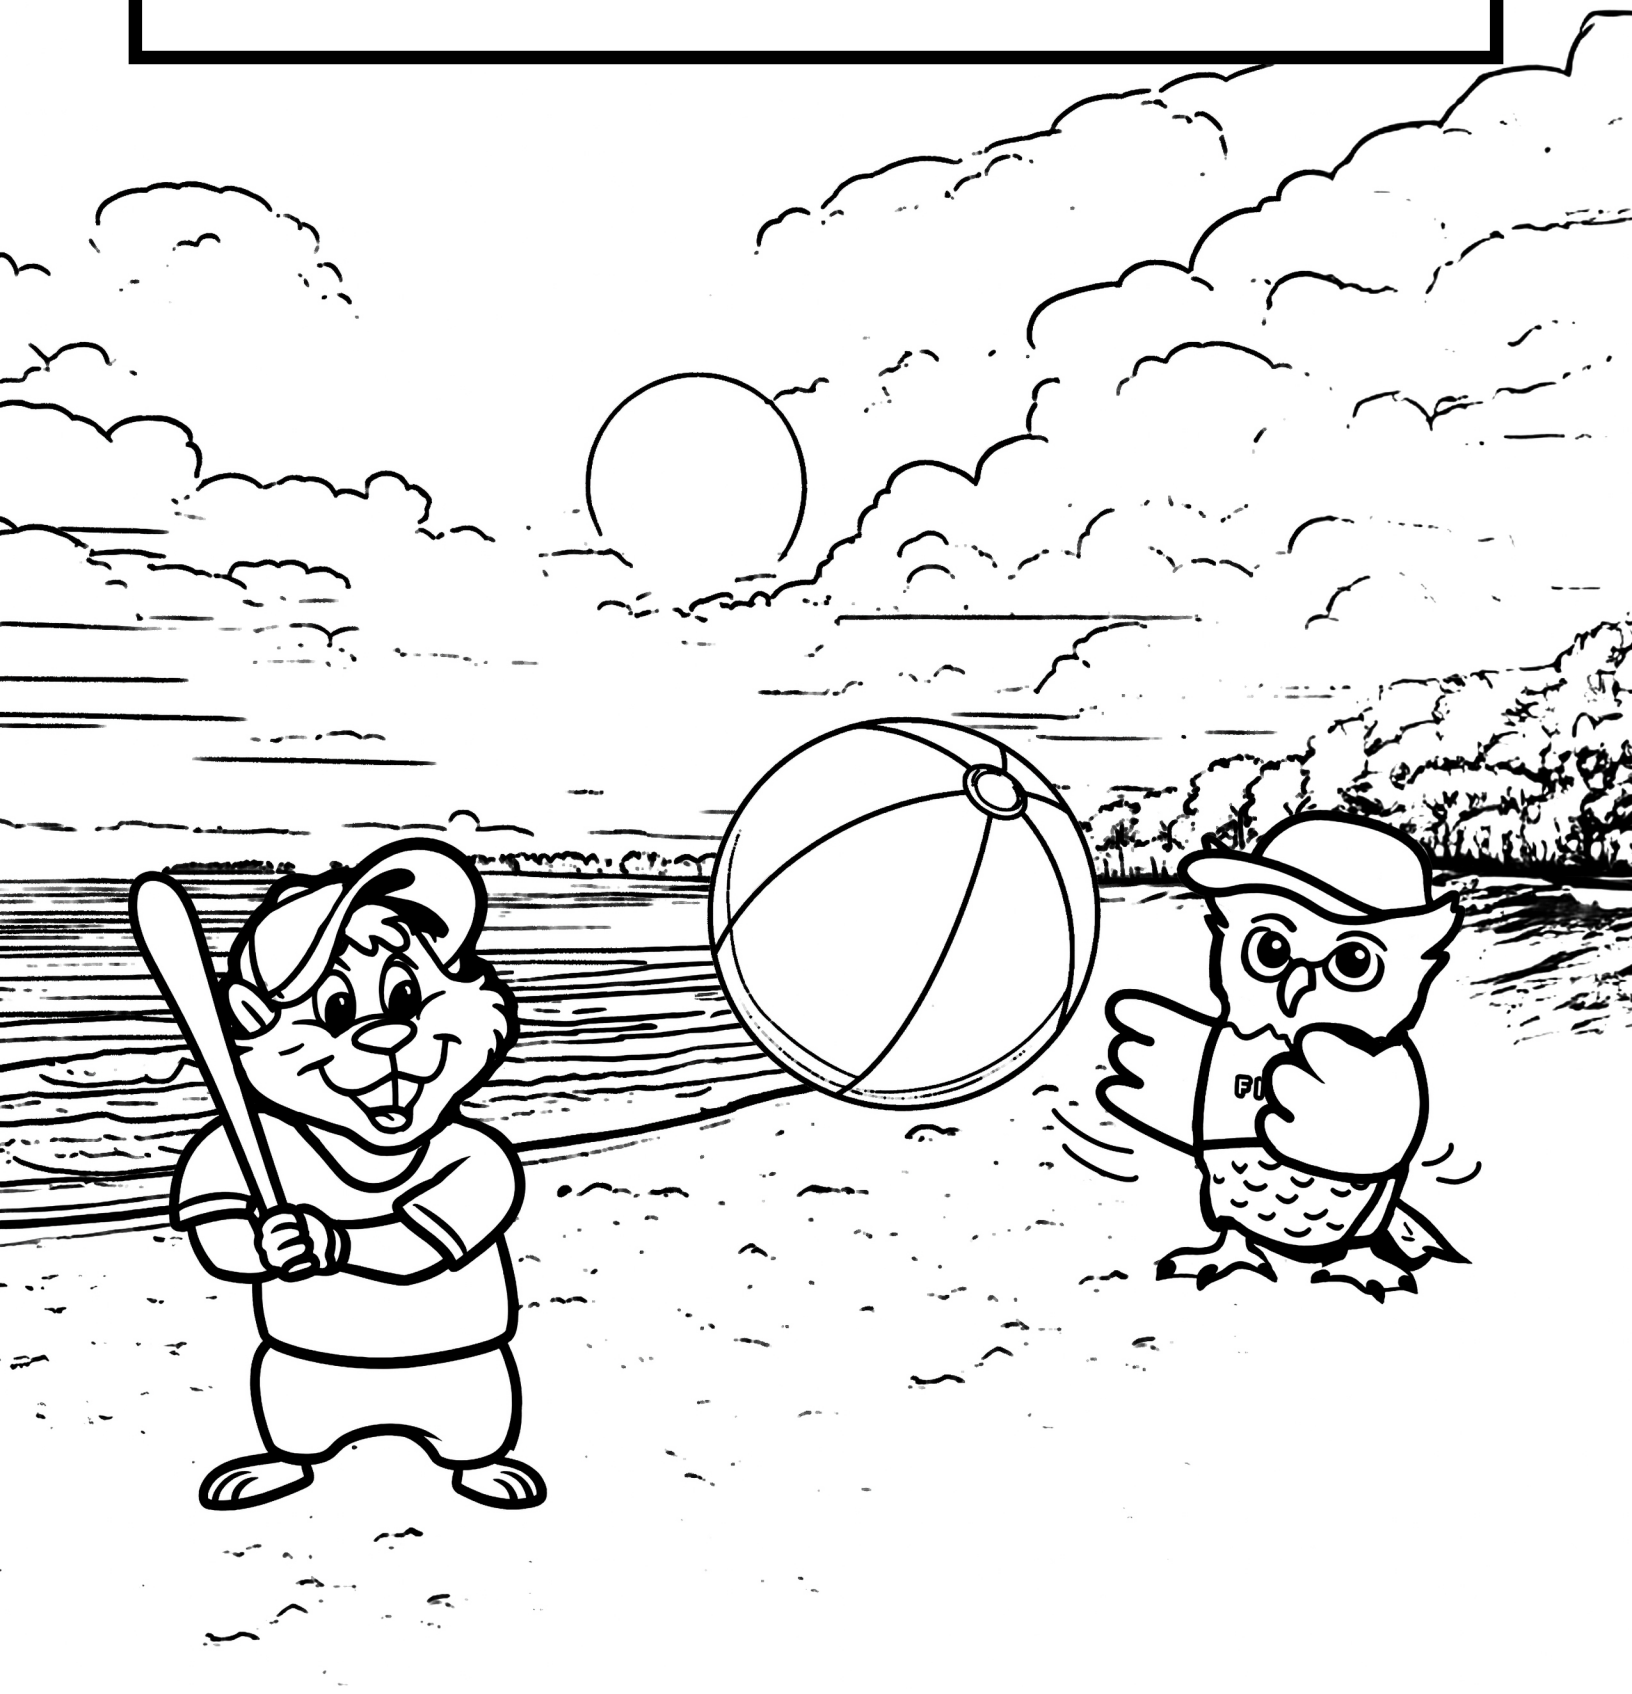

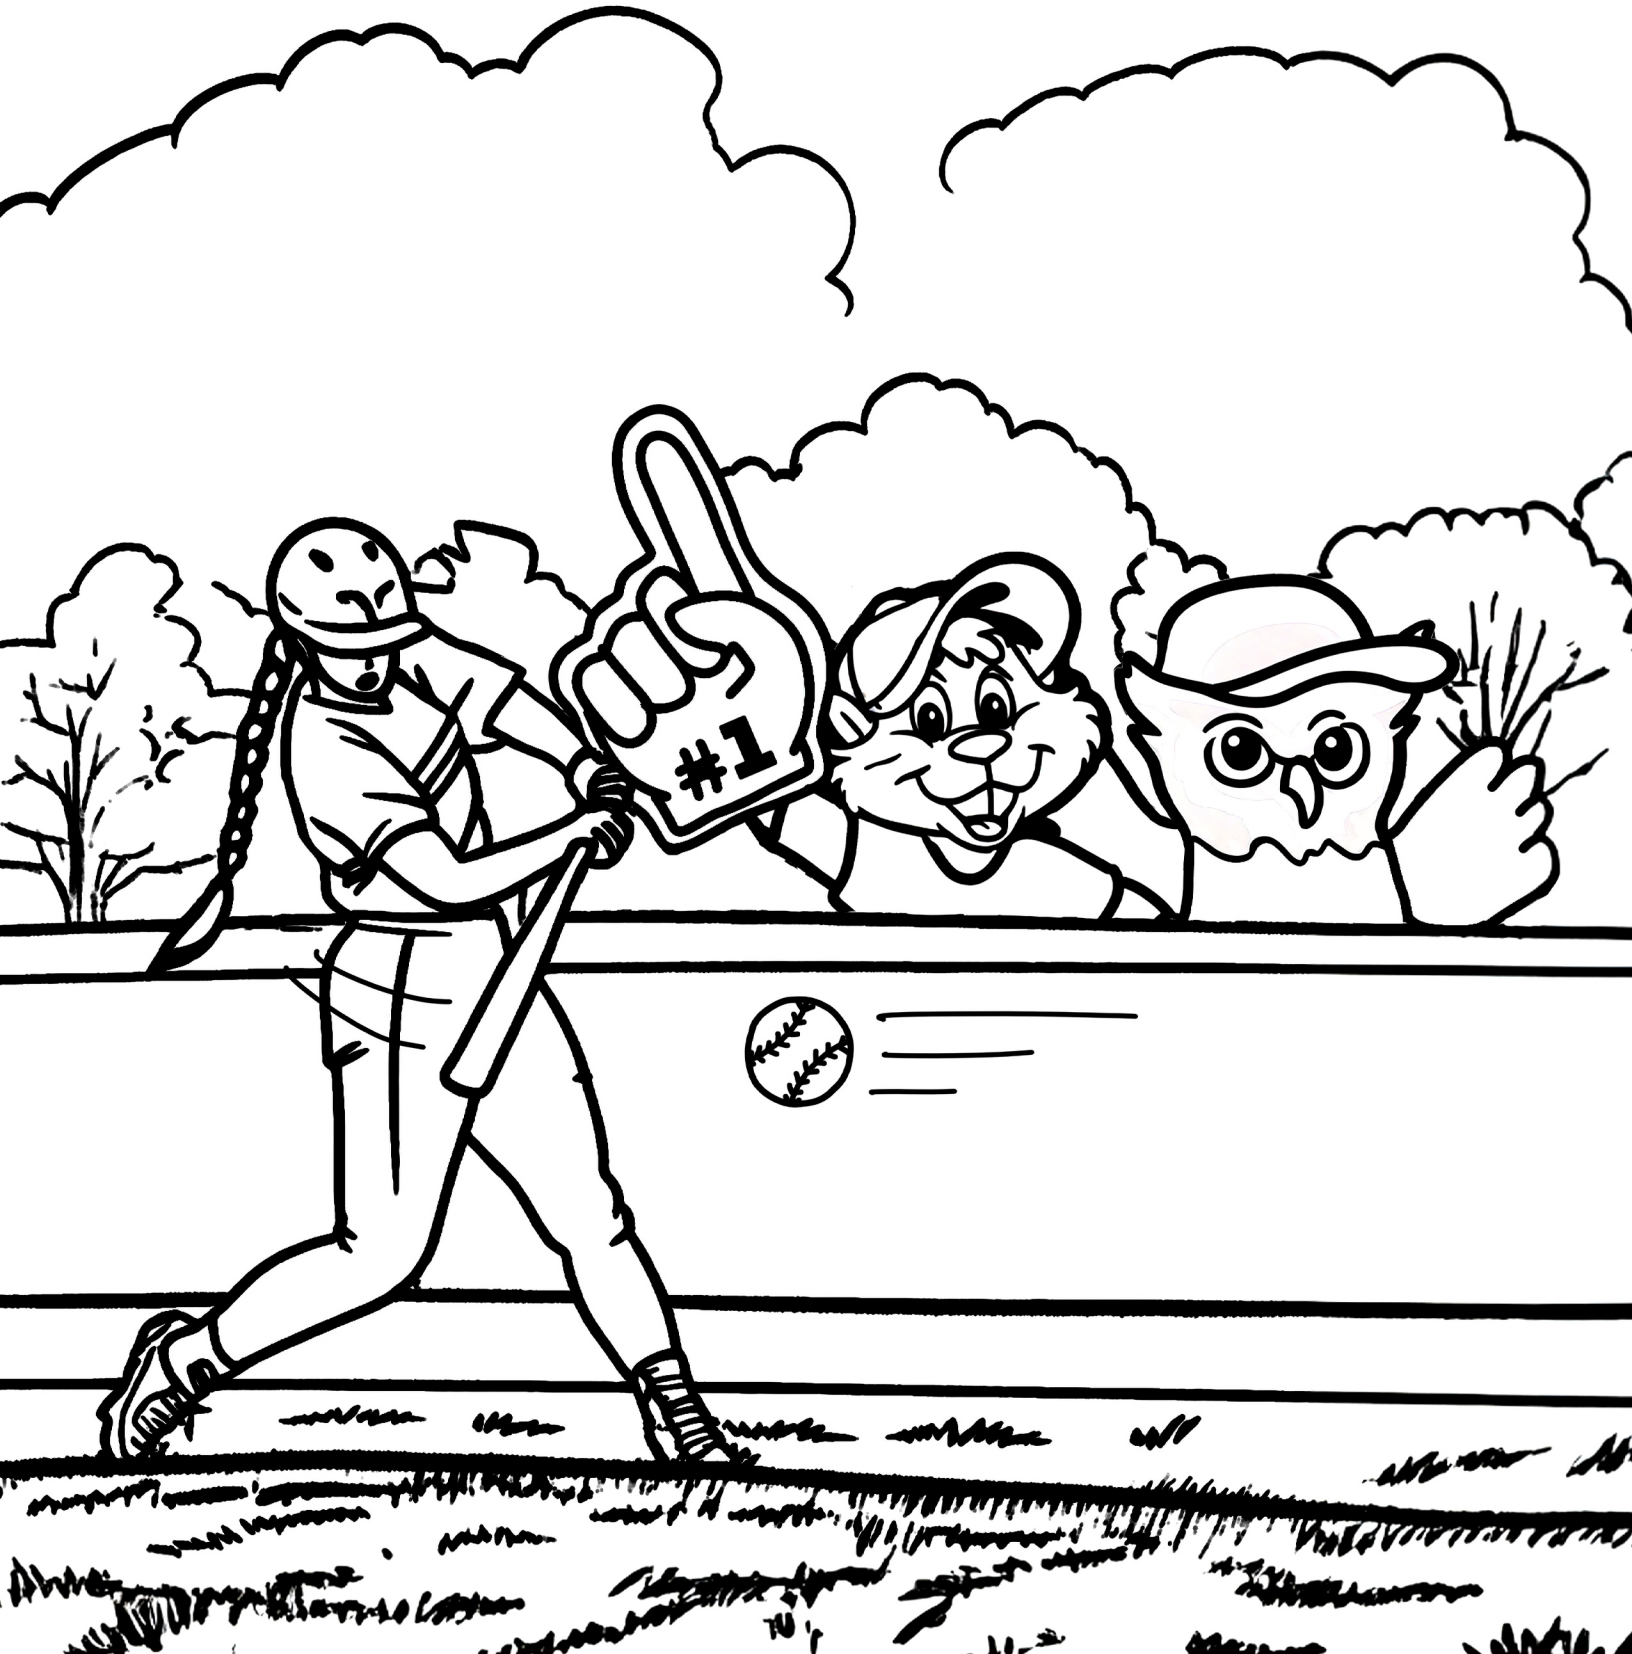

Next, Dugout and Fielder hopped into a hot air balloon and lifted off, leaving Edmonton behind. As they soared above the North Saskatchewan River, they floated over the city's river valley, heading toward their next adventure!

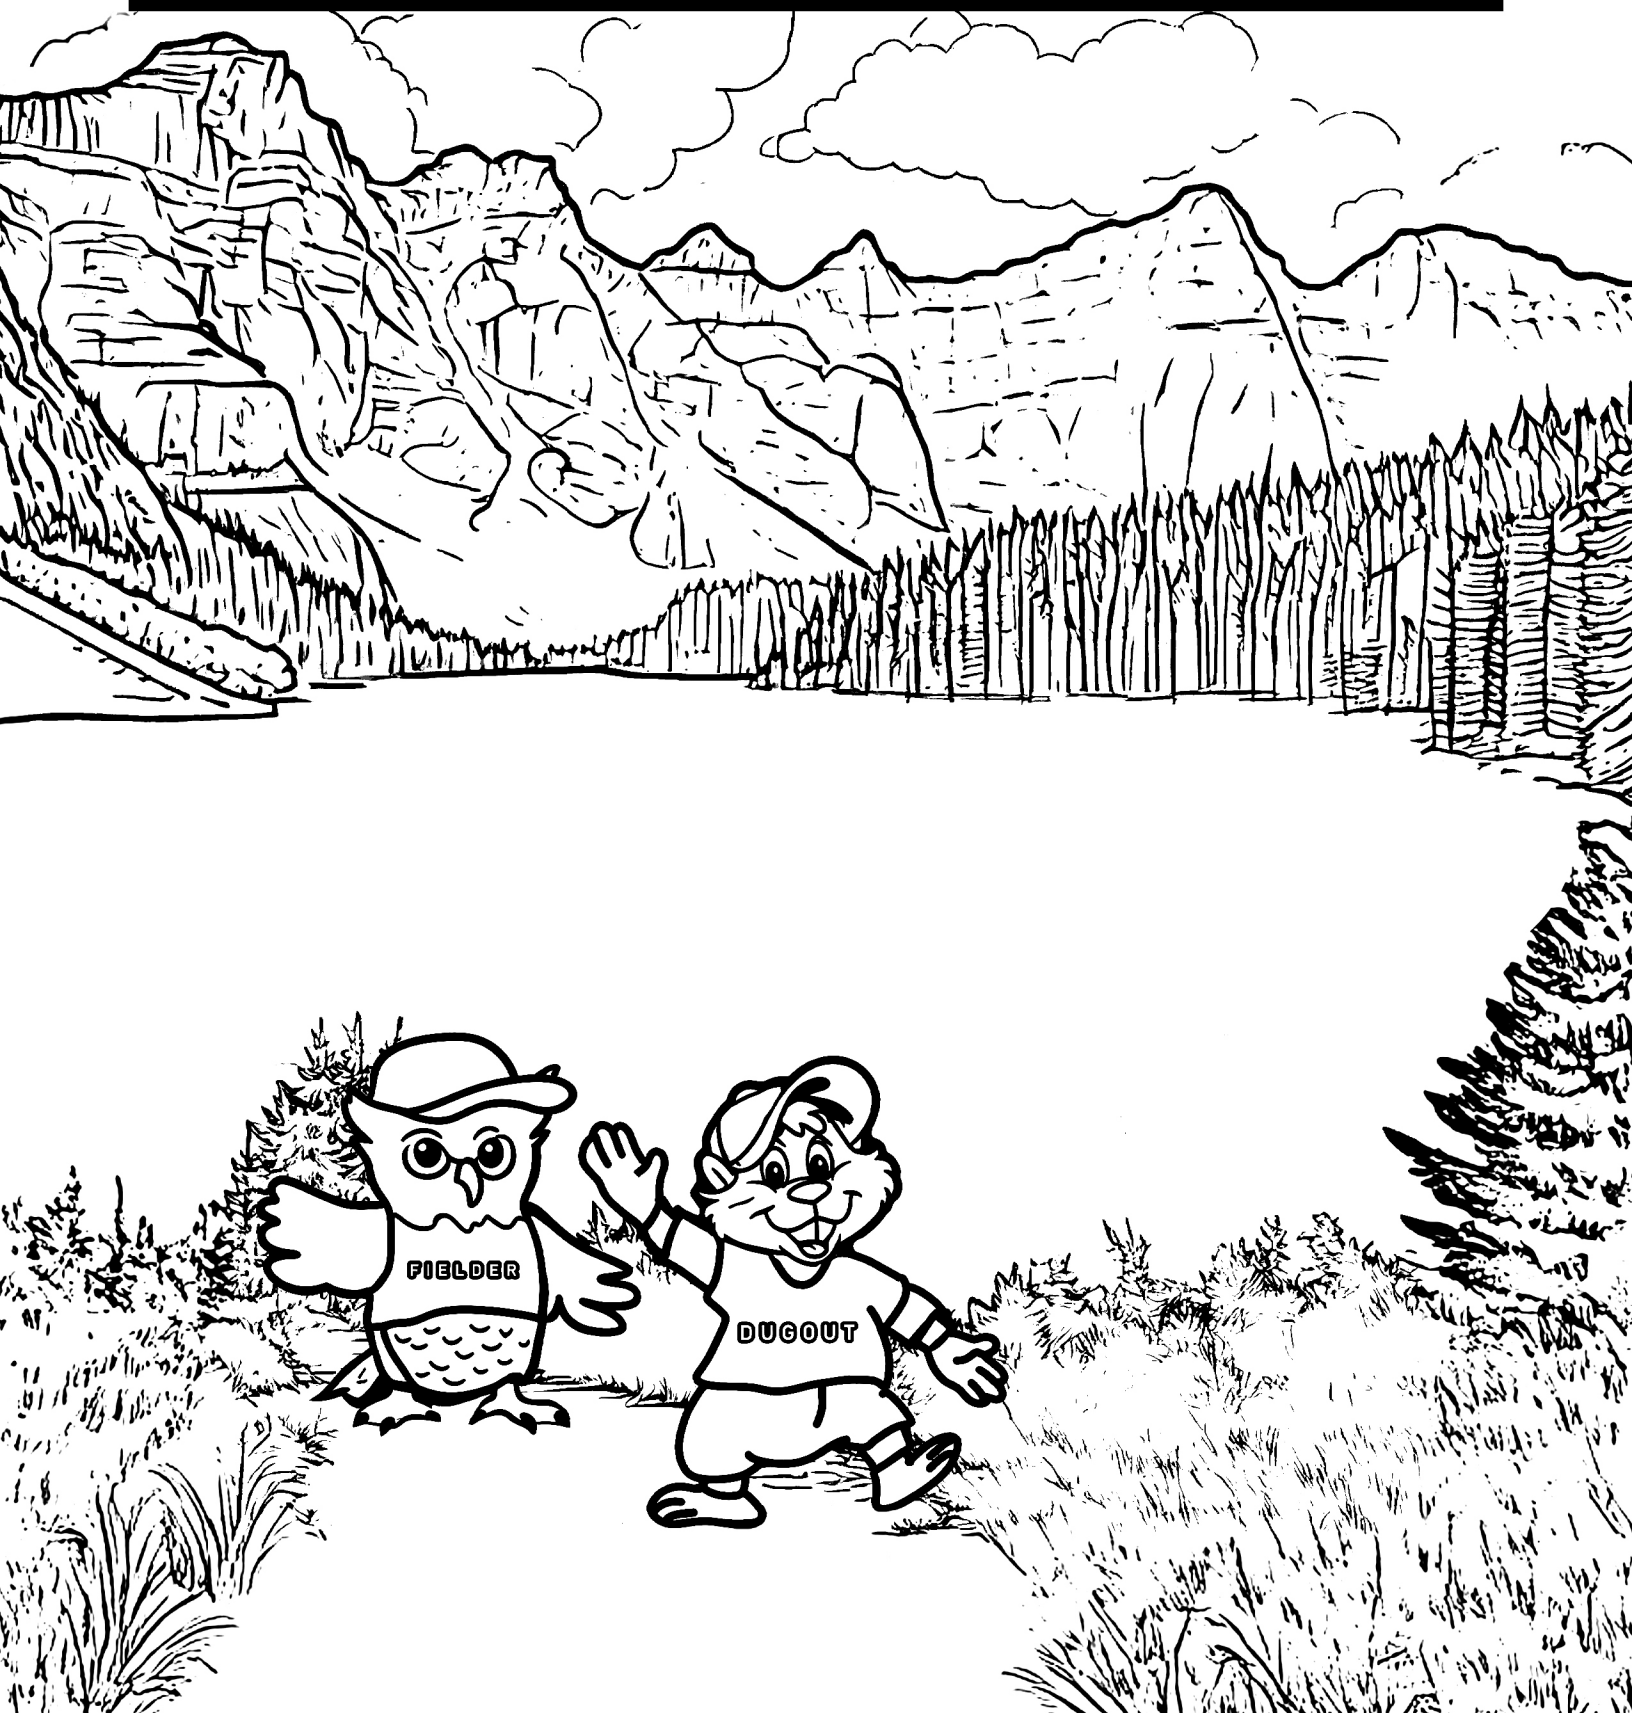

After landing near Sylvan Lake, Dugout and Fielder made their way to the beach at Sylvan Lake Park. When they tried playing baseball with a beach ball, they quickly realized it was a lot easier to hit—no strikeouts here!

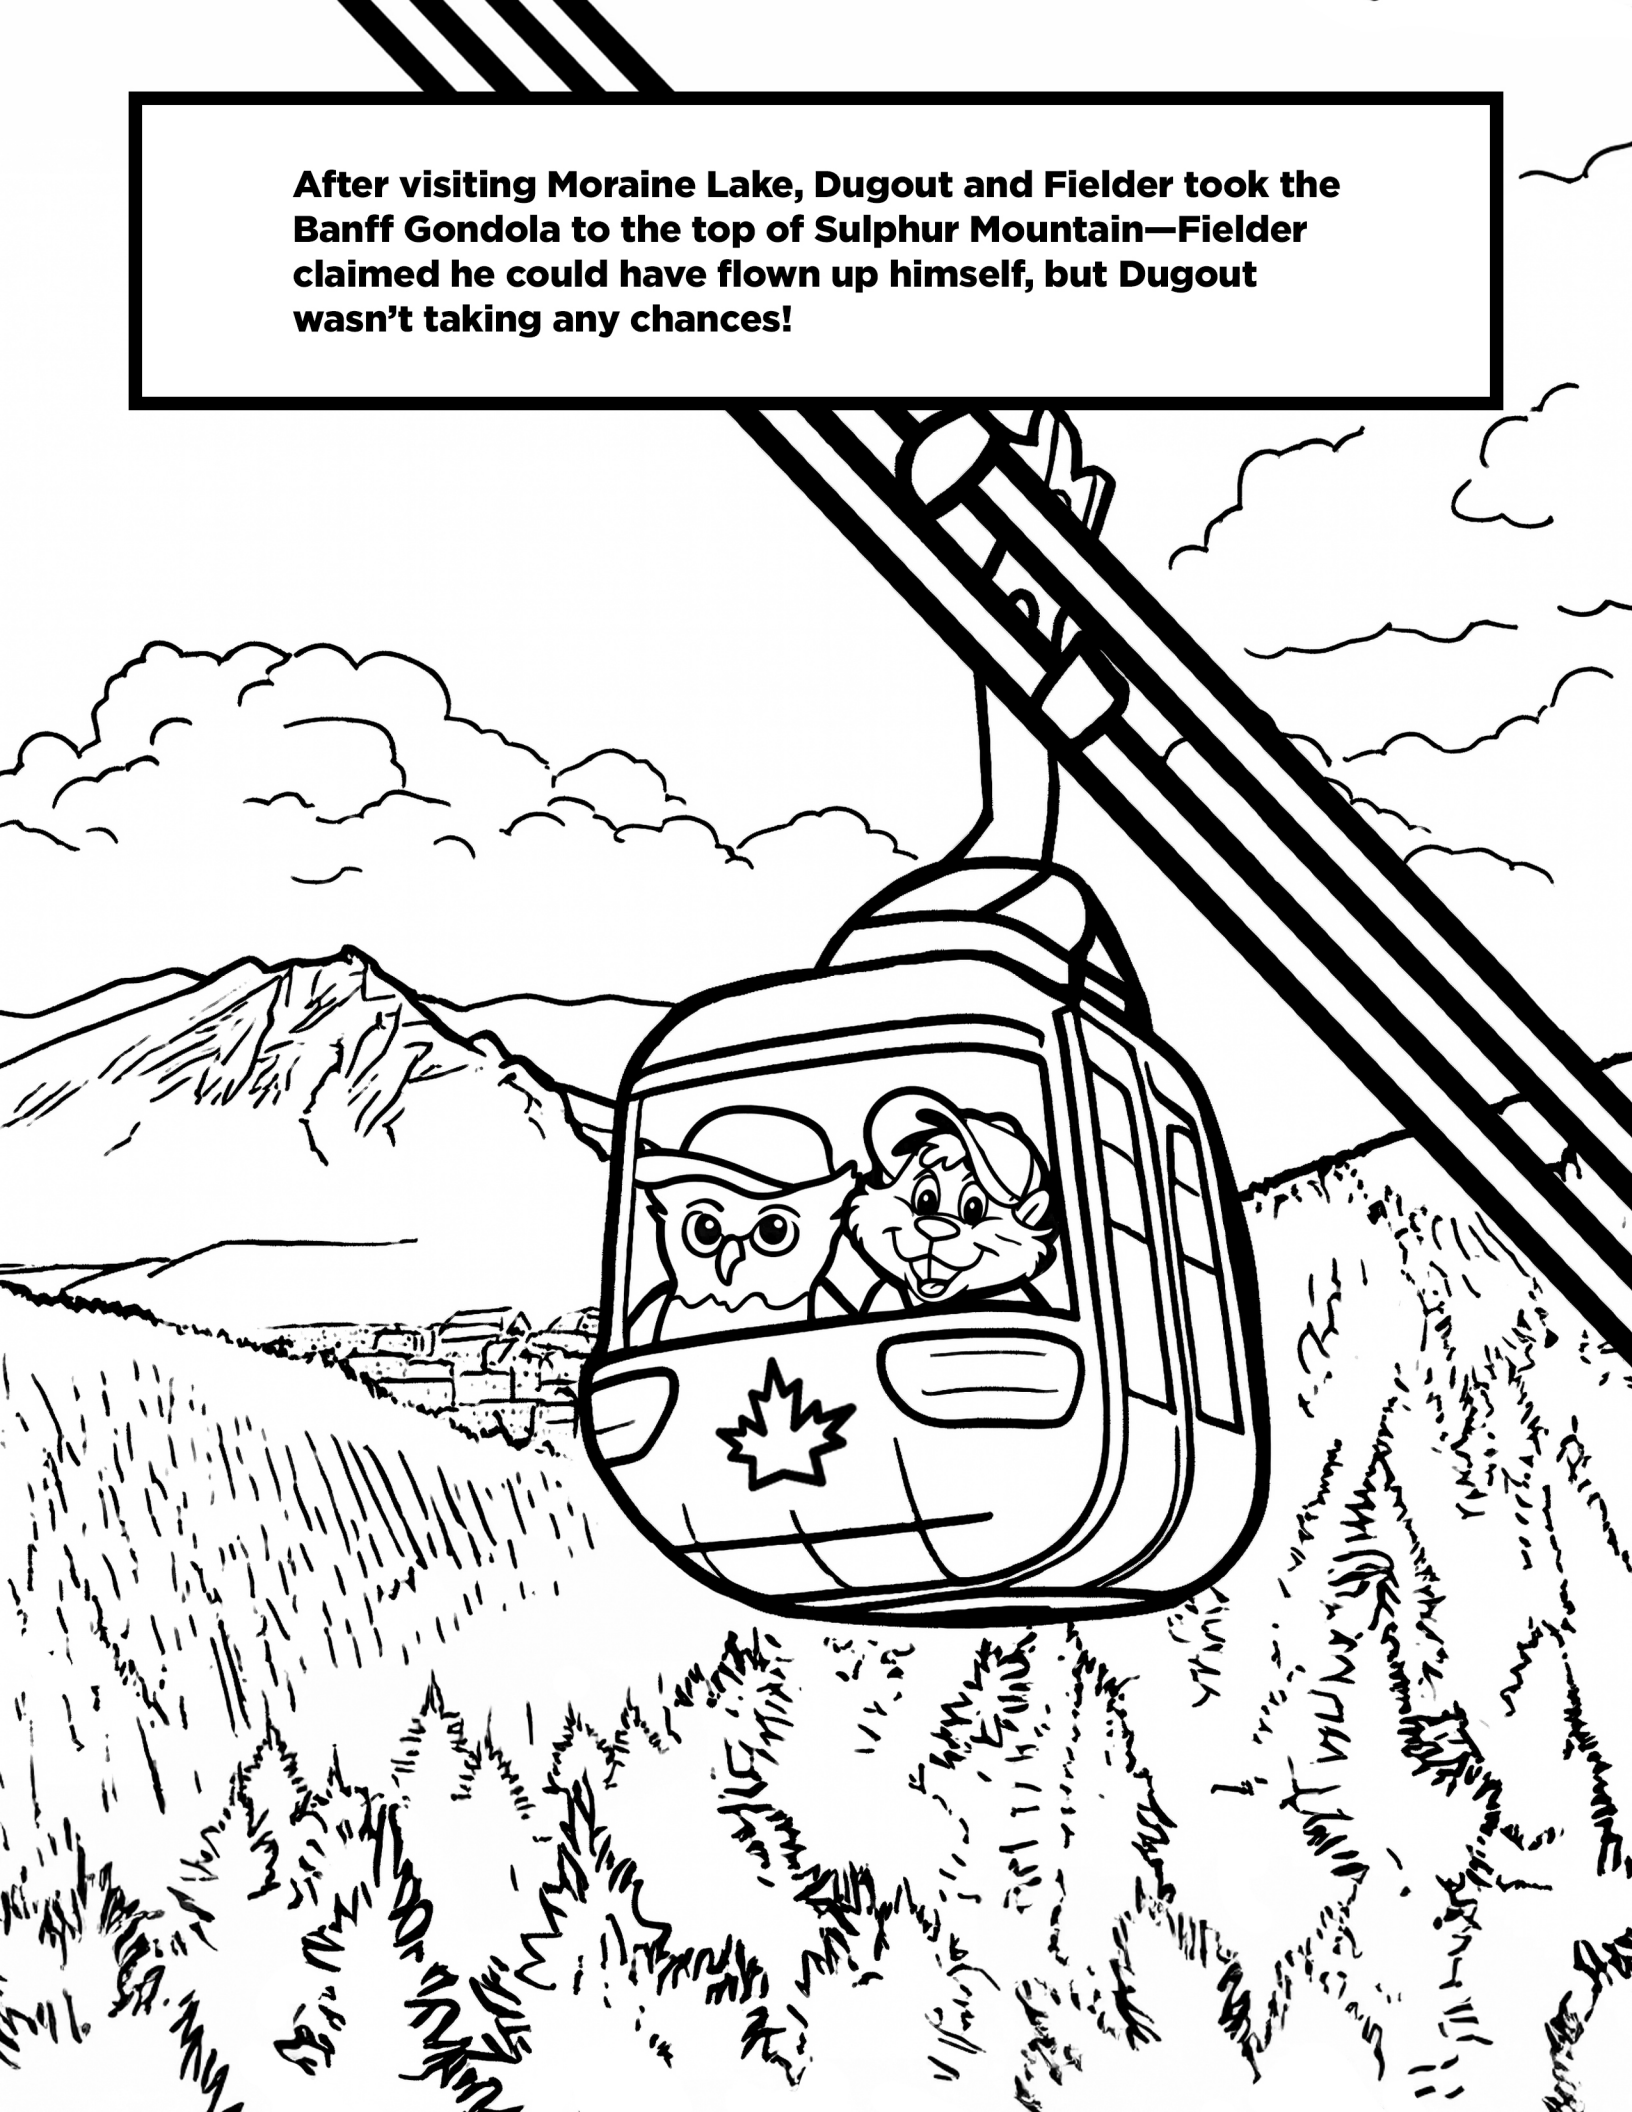

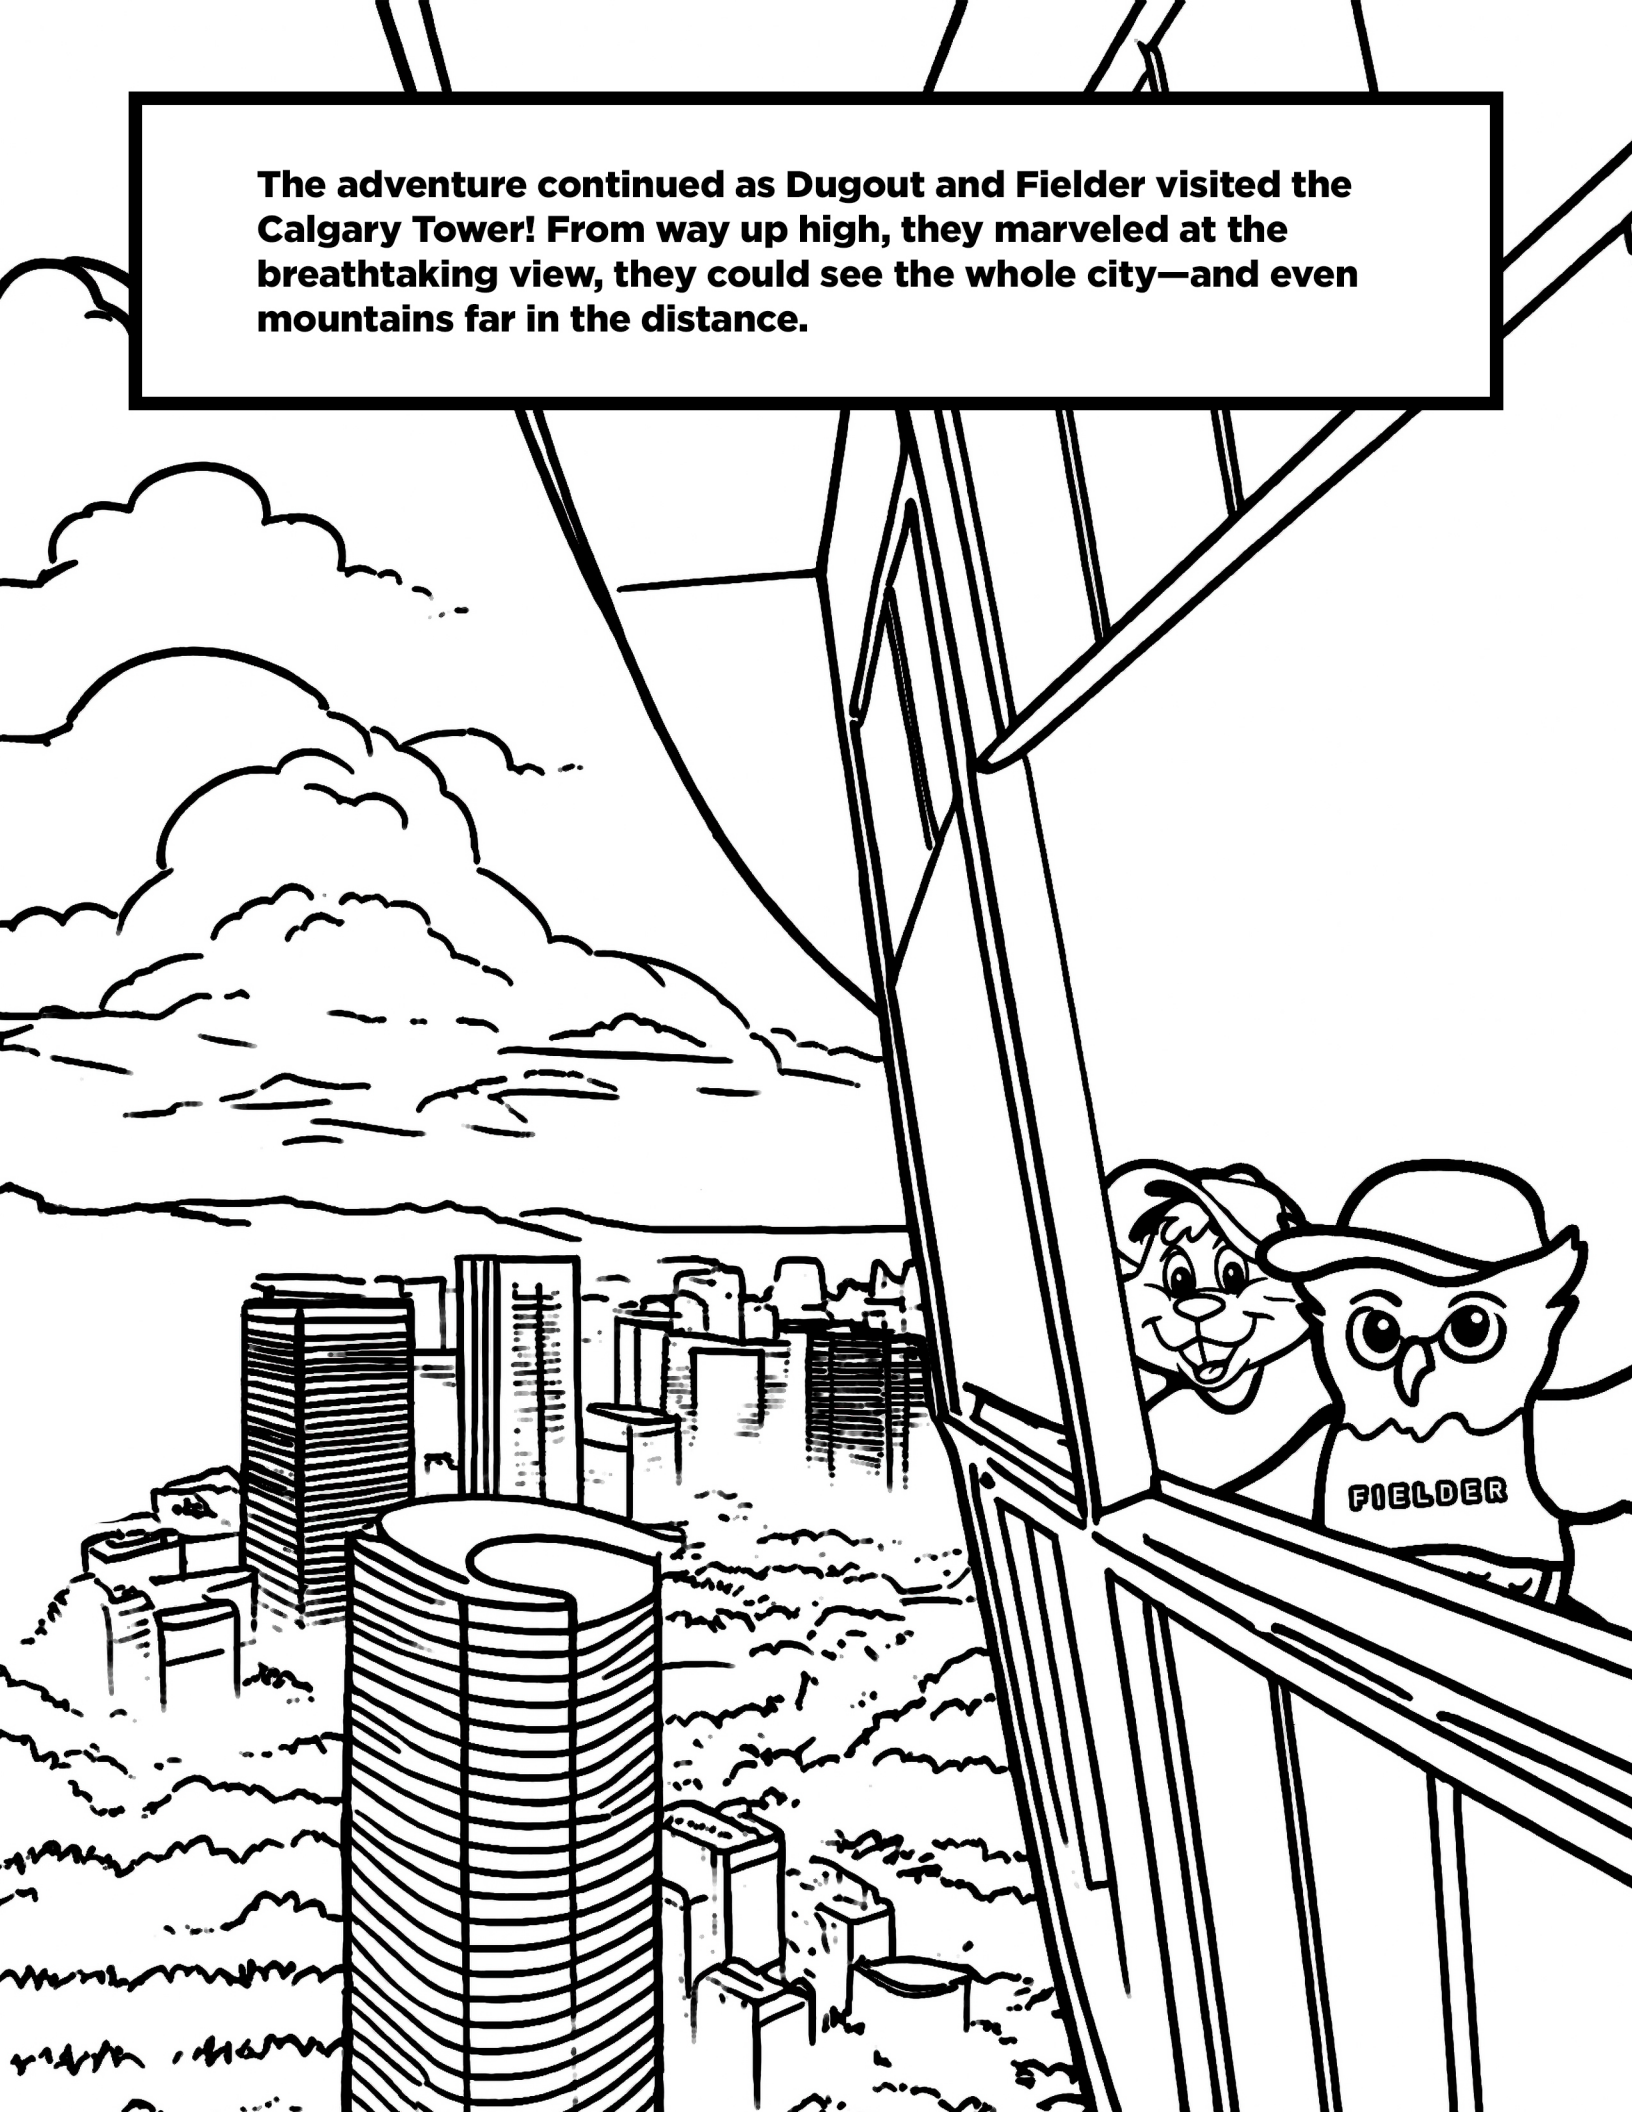

The next stop on their journey was Innisfail, where Dugout and Fielder arrived just in time to watch an exciting softball game. With energy high and smiles wide, they cheered for every great play!

Eager to share Alberta's natural beauty, Fielder took Dugout hiking near the stunning Moraine Lake. With its sparkling blue waters and towering peaks, it was a magnificent sight that Dugout would never forget!

After visiting Moraine Lake, Dugout and Fielder took the Banff Gondola to the top of Sulphur Mountain—Fielder claimed he could have flown up himself, but Dugout wasn't taking any chances!

The adventure continued as Dugout and Fielder visited the Calgary Tower! From way up high, they marveled at the breathtaking view, they could see the whole city—and even mountains far in the distance.
FIELDER

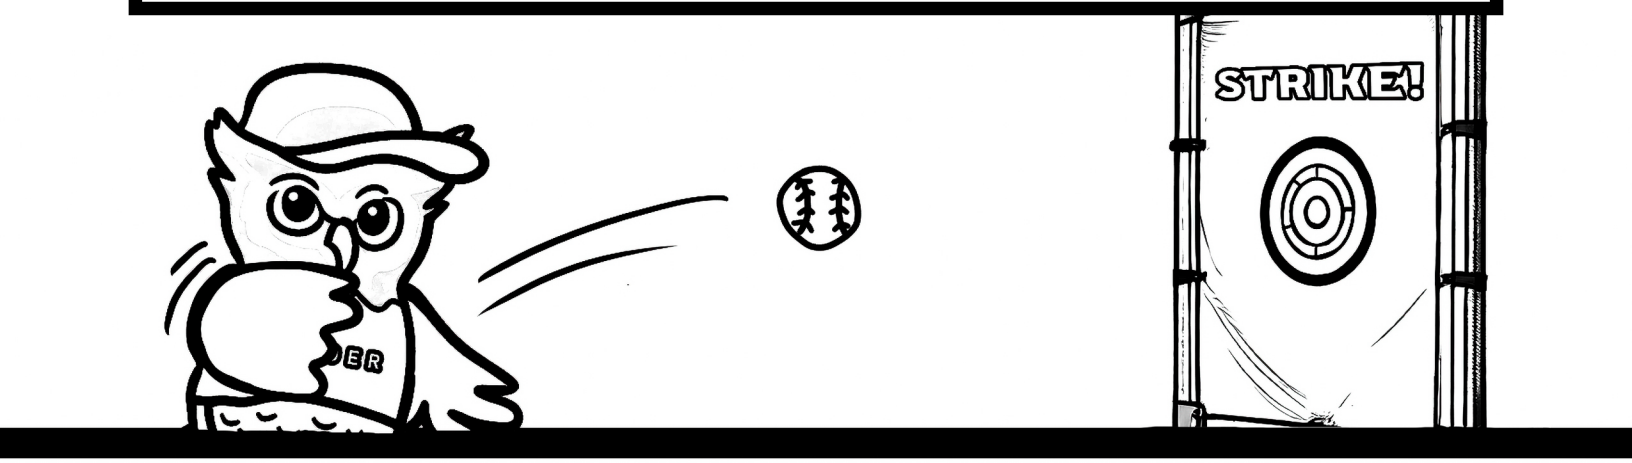

After taking in the views from the Calgary Tower, Dugout and Fielder made their way to Rotary Challenger Park. There, they met up with a friend to play some baseball, enjoying the fun and the fresh air!

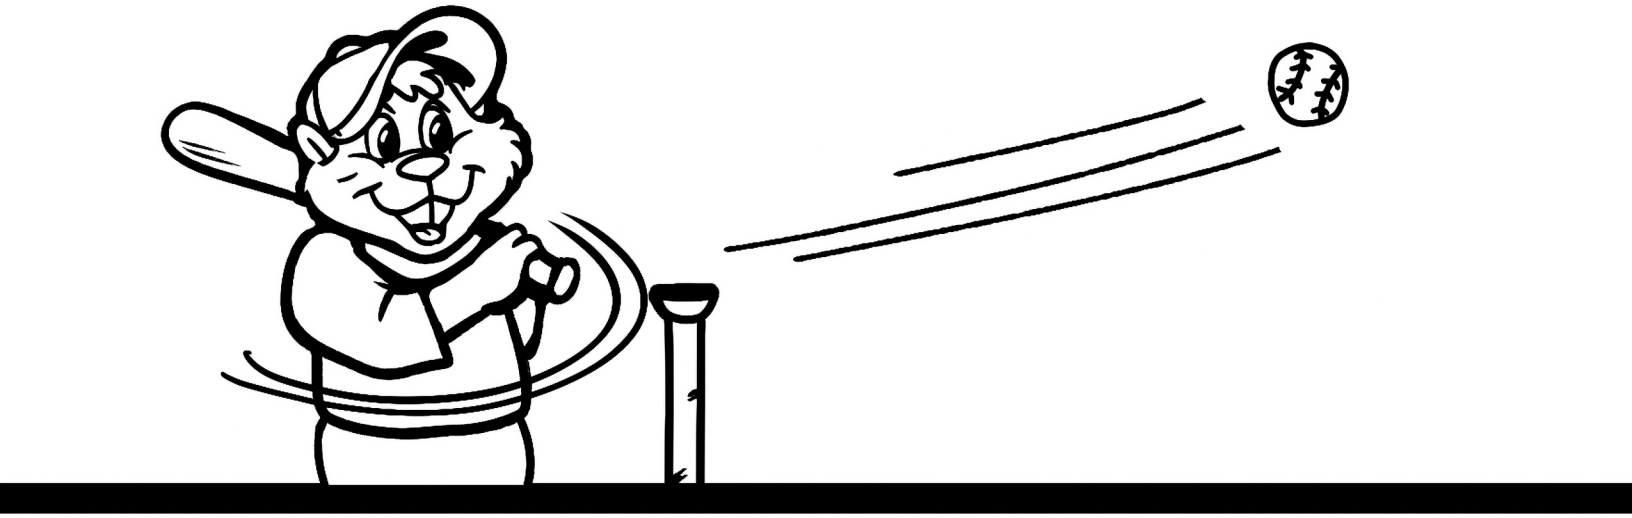

Dugout and Fielder headed to Rose Diamond in Stanley Park, where the 2022 Canadian Little League® Championship was played. Excited to be on such an important field, they grabbed their gloves and played a game of catch!

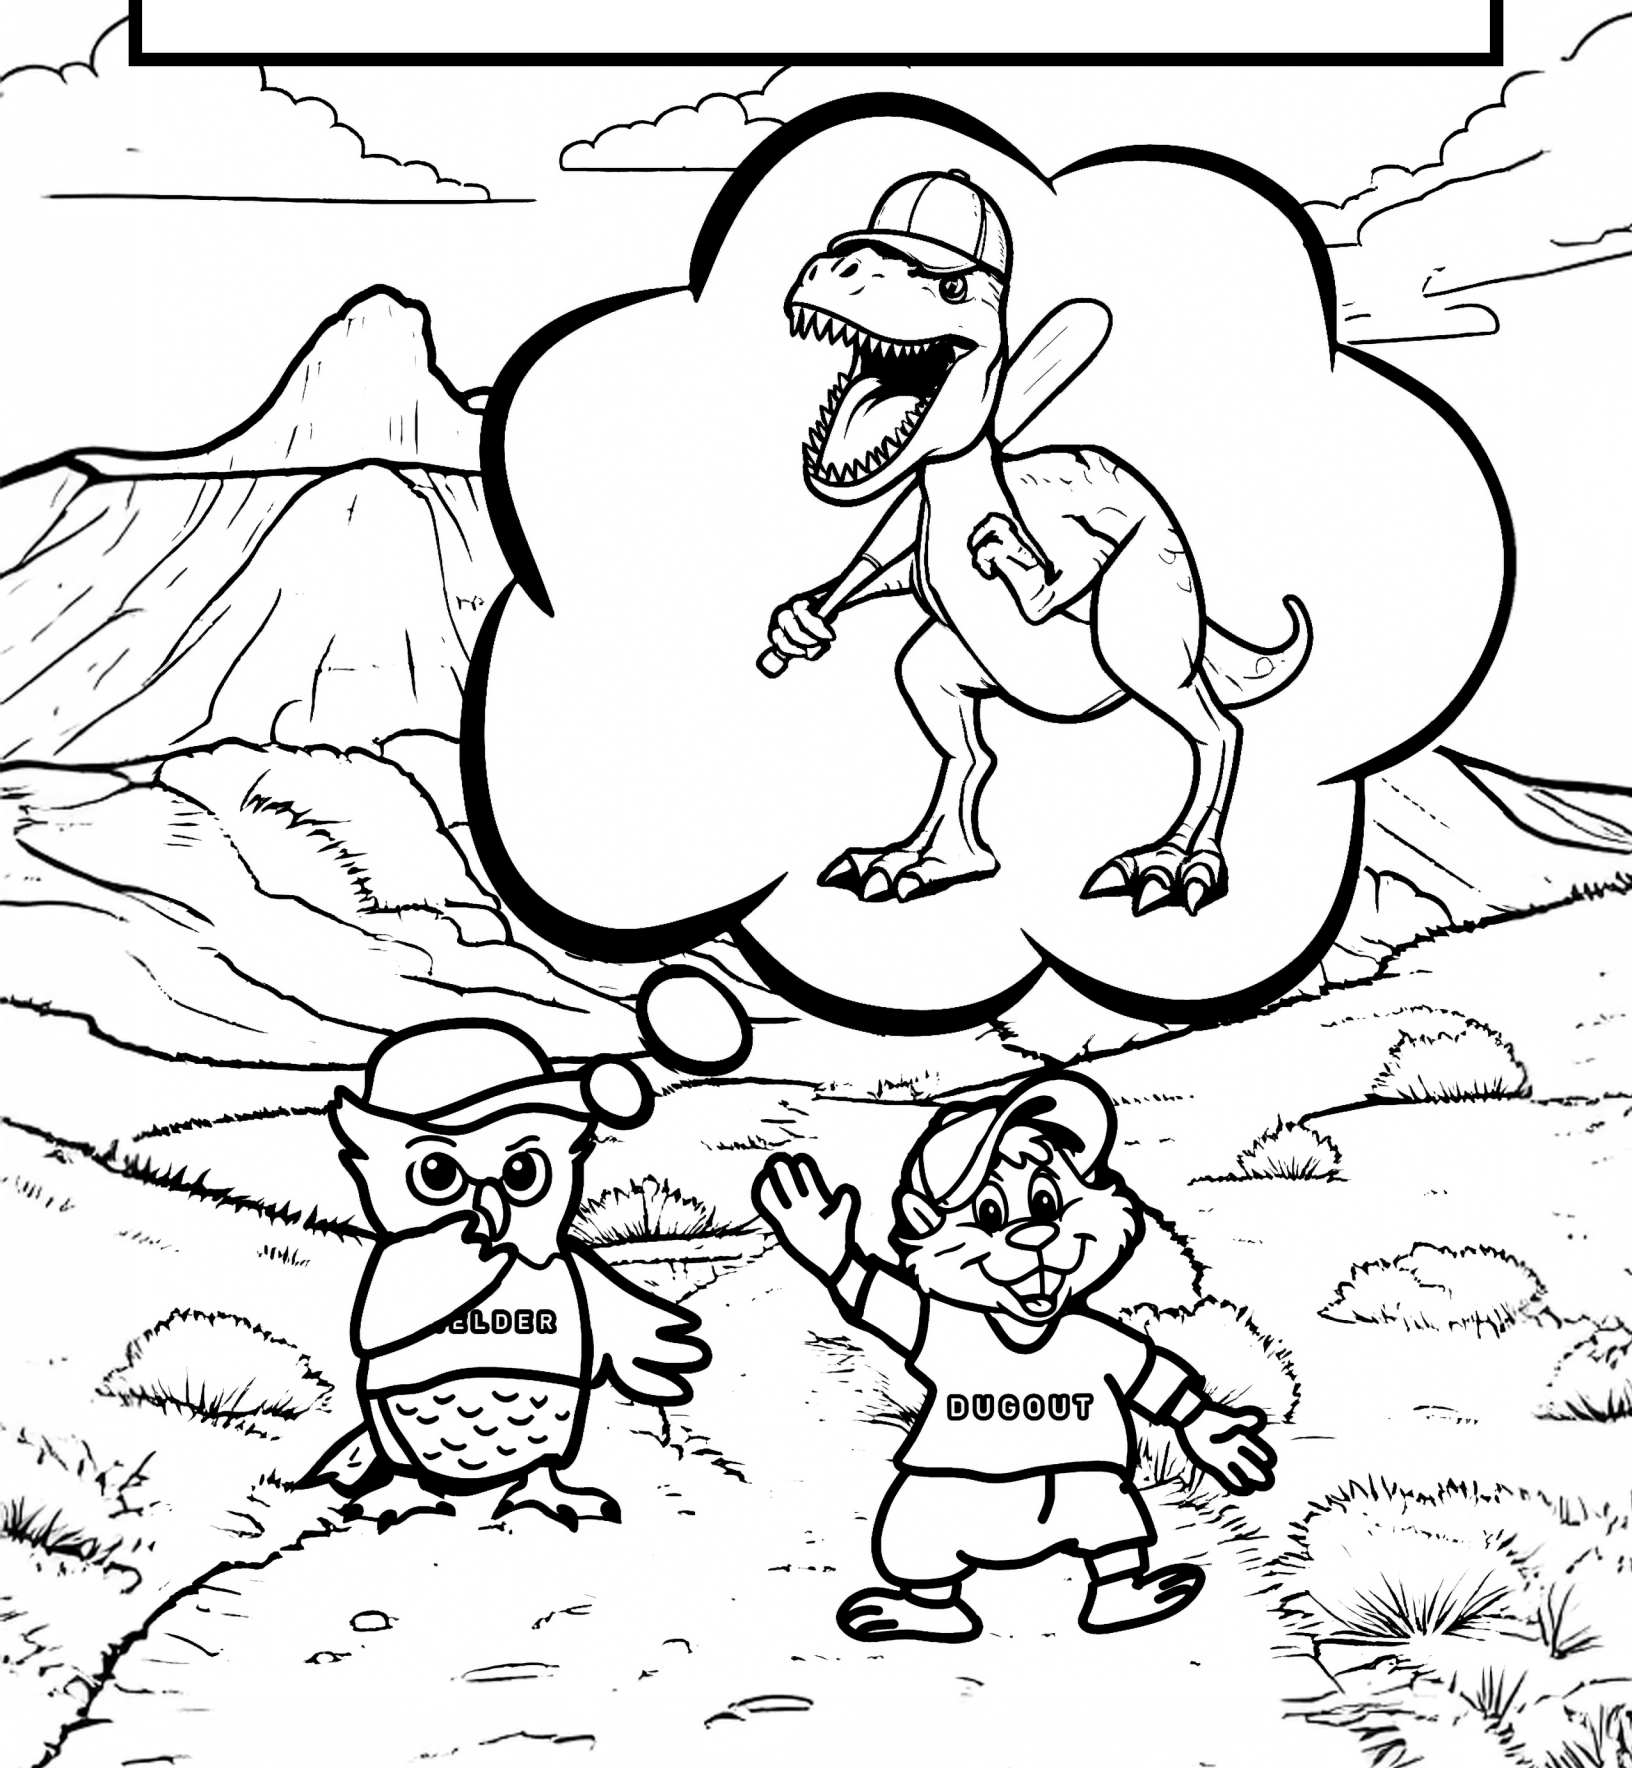

In Okotoks they attended the Pitch, Hit & Run event, ready to show off their skills! Fielder threw perfect pitches, and Dugout hit great shots—but they were both stunned when they saw a player sprinting super fast!

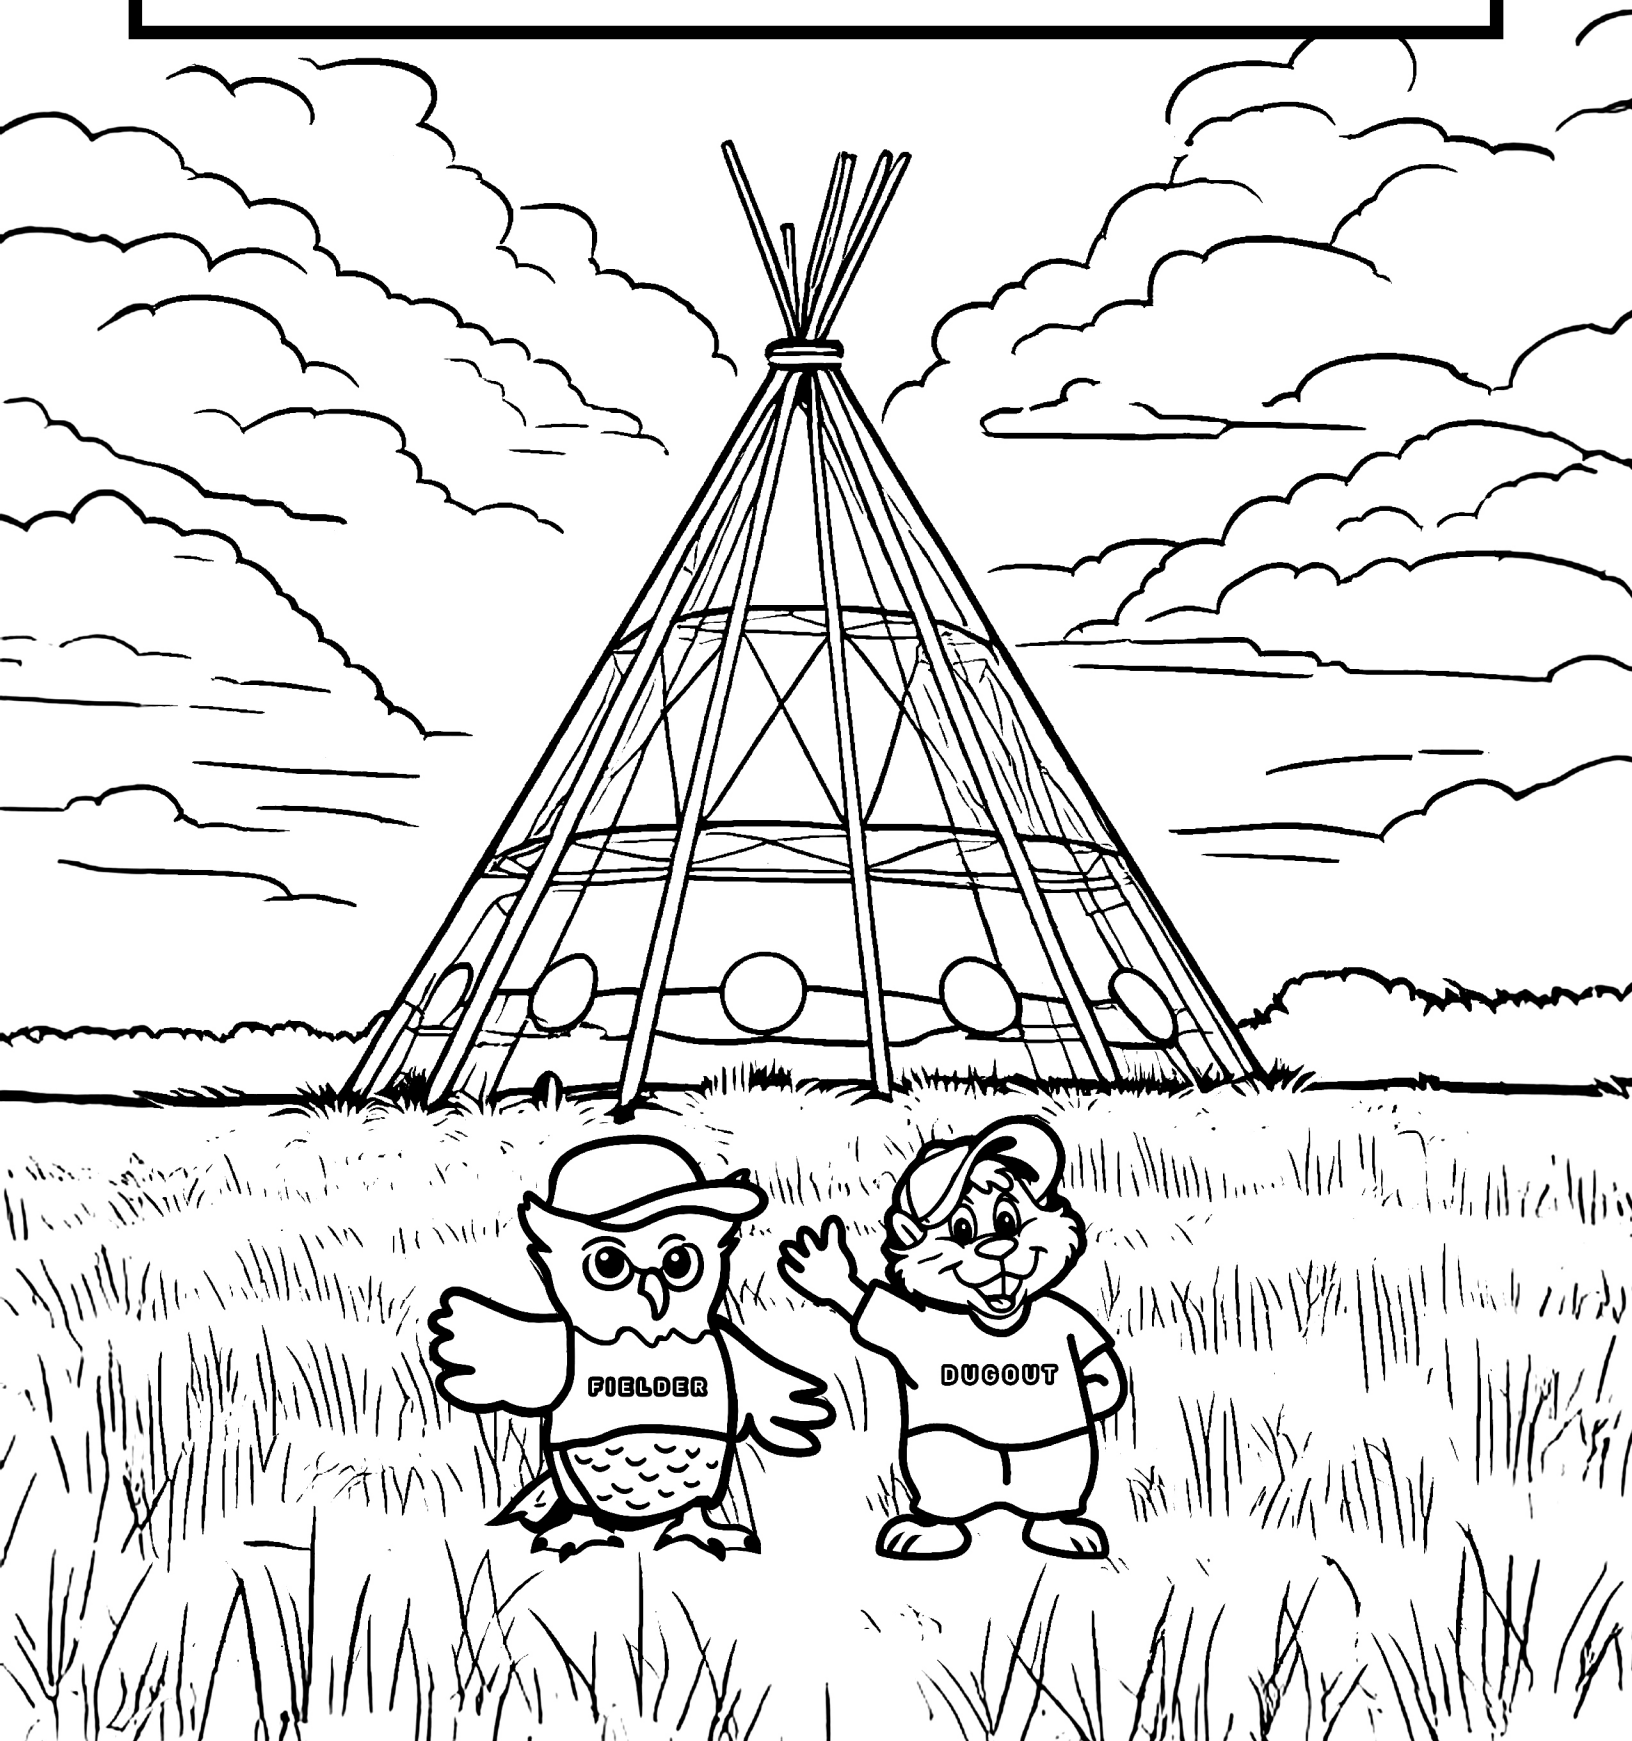

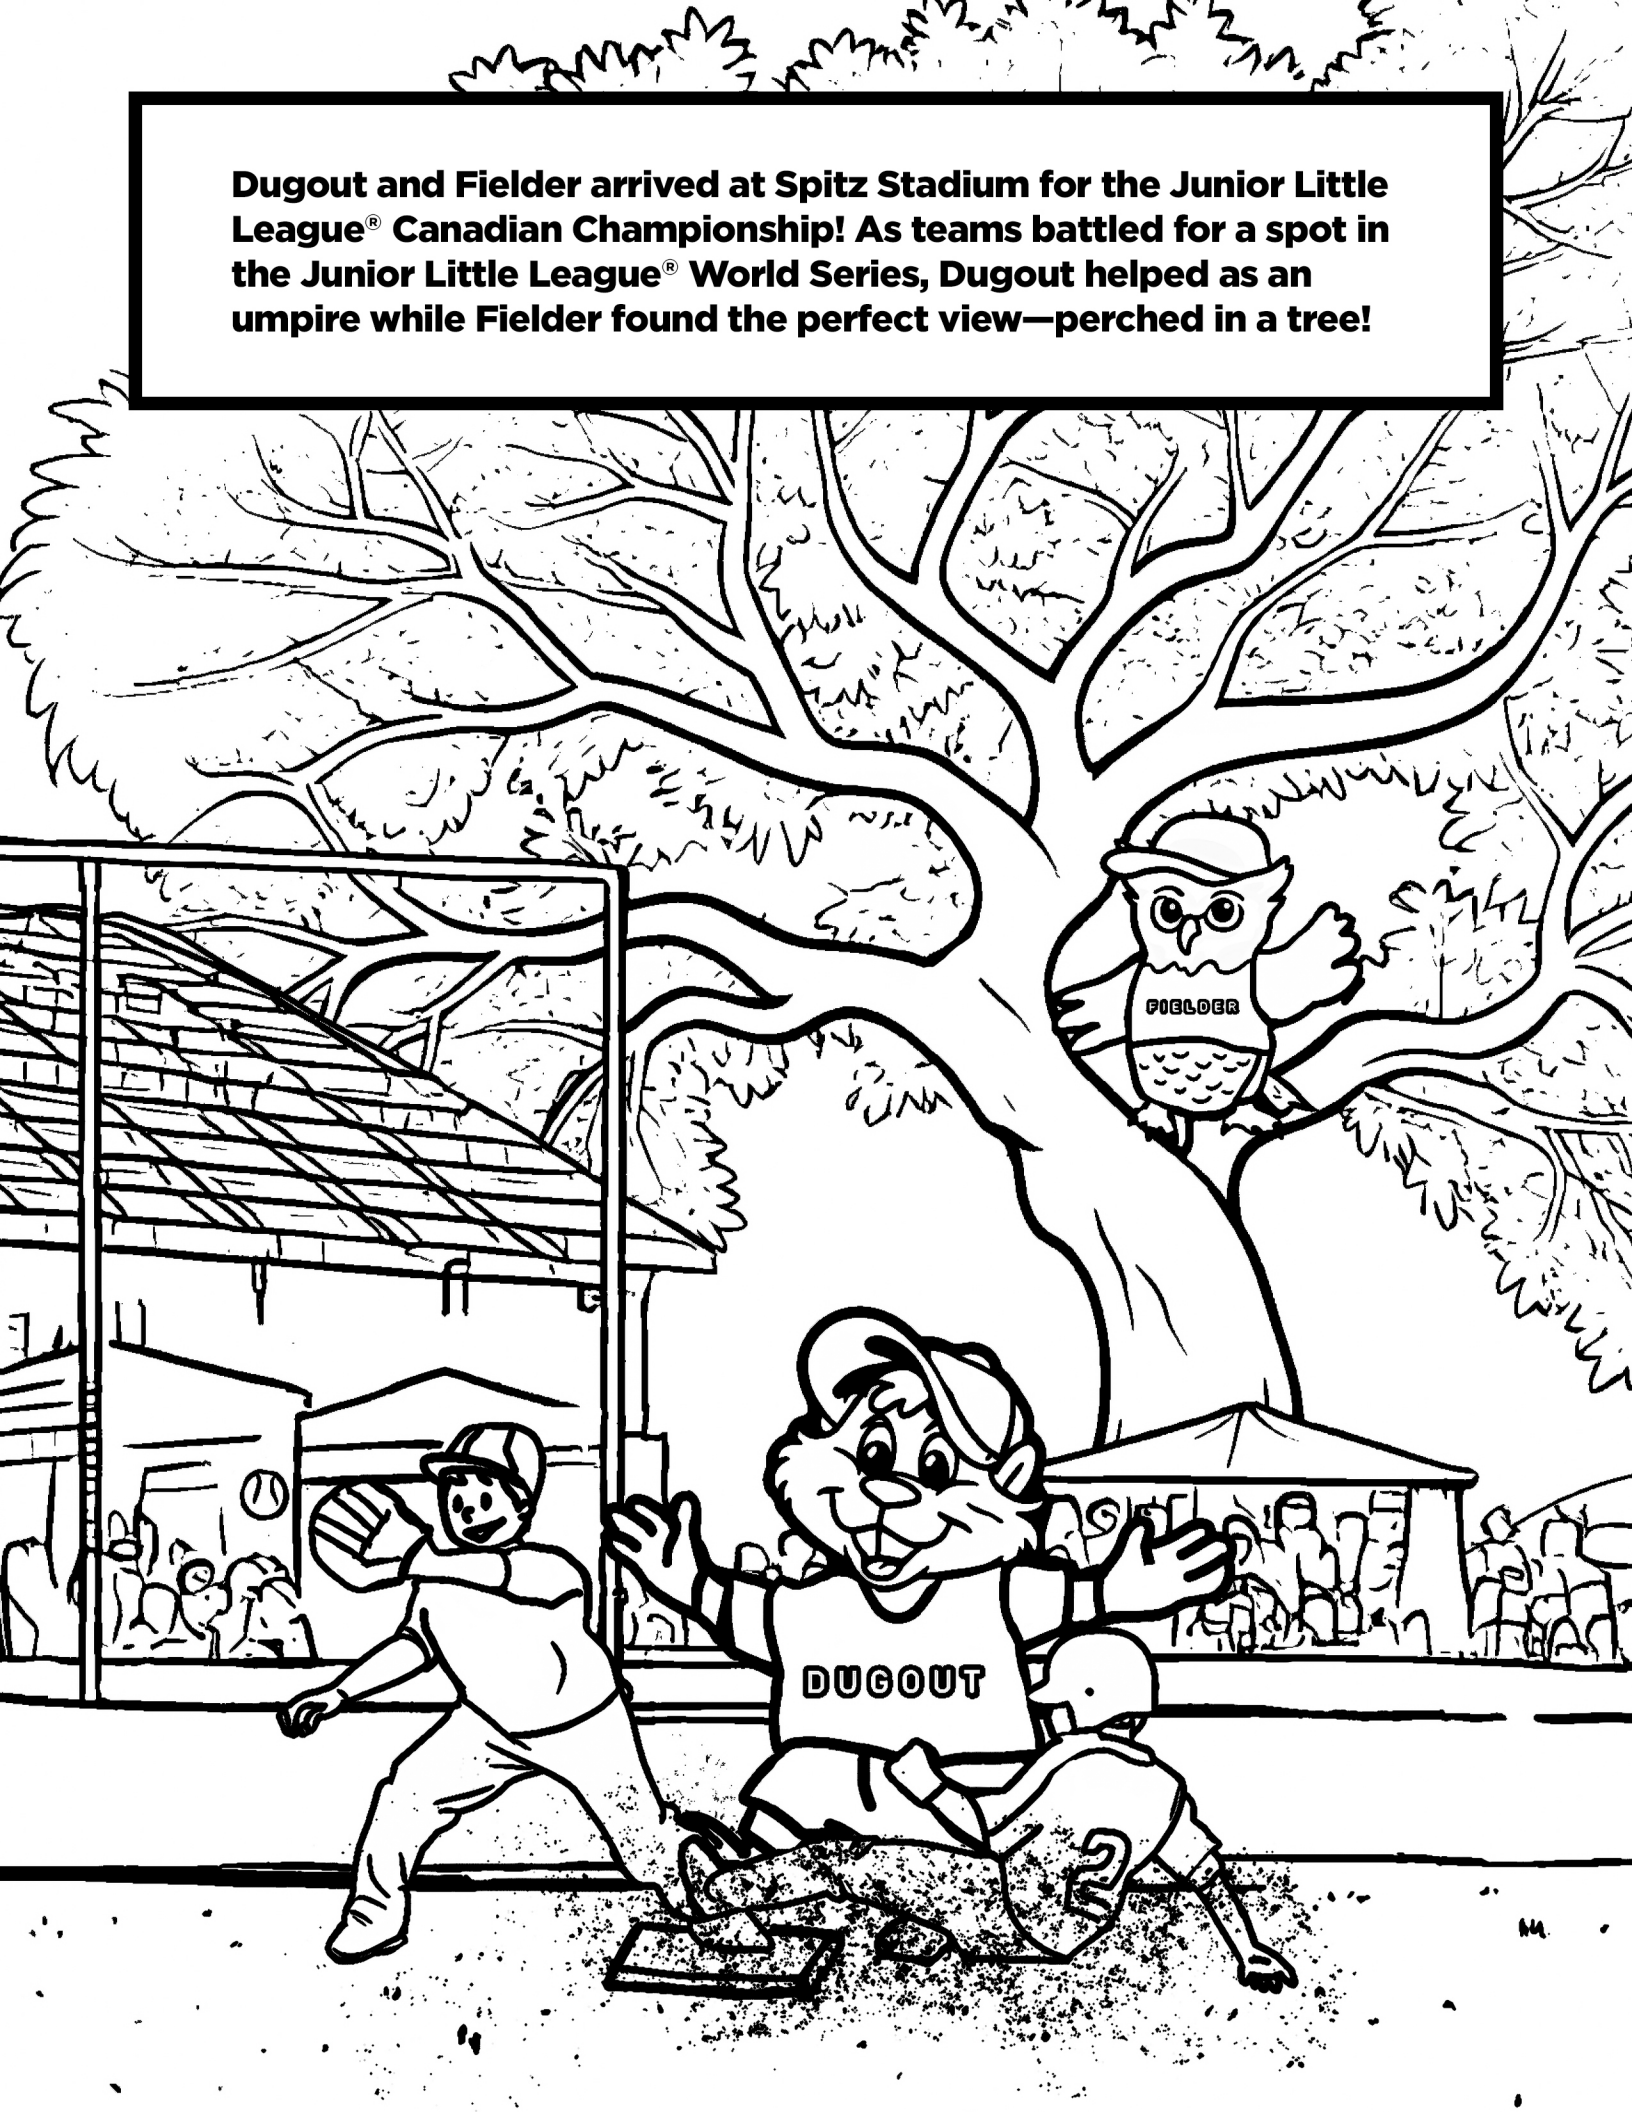

Dugout and Fielder explored the rocky landscape of Dinosaur Provincial Park near Brooks, surrounded by ancient fossils and towering hoodoos. As they walked, Fielder wondered—how would a T-Rex have held a baseball bat with such tiny arms?

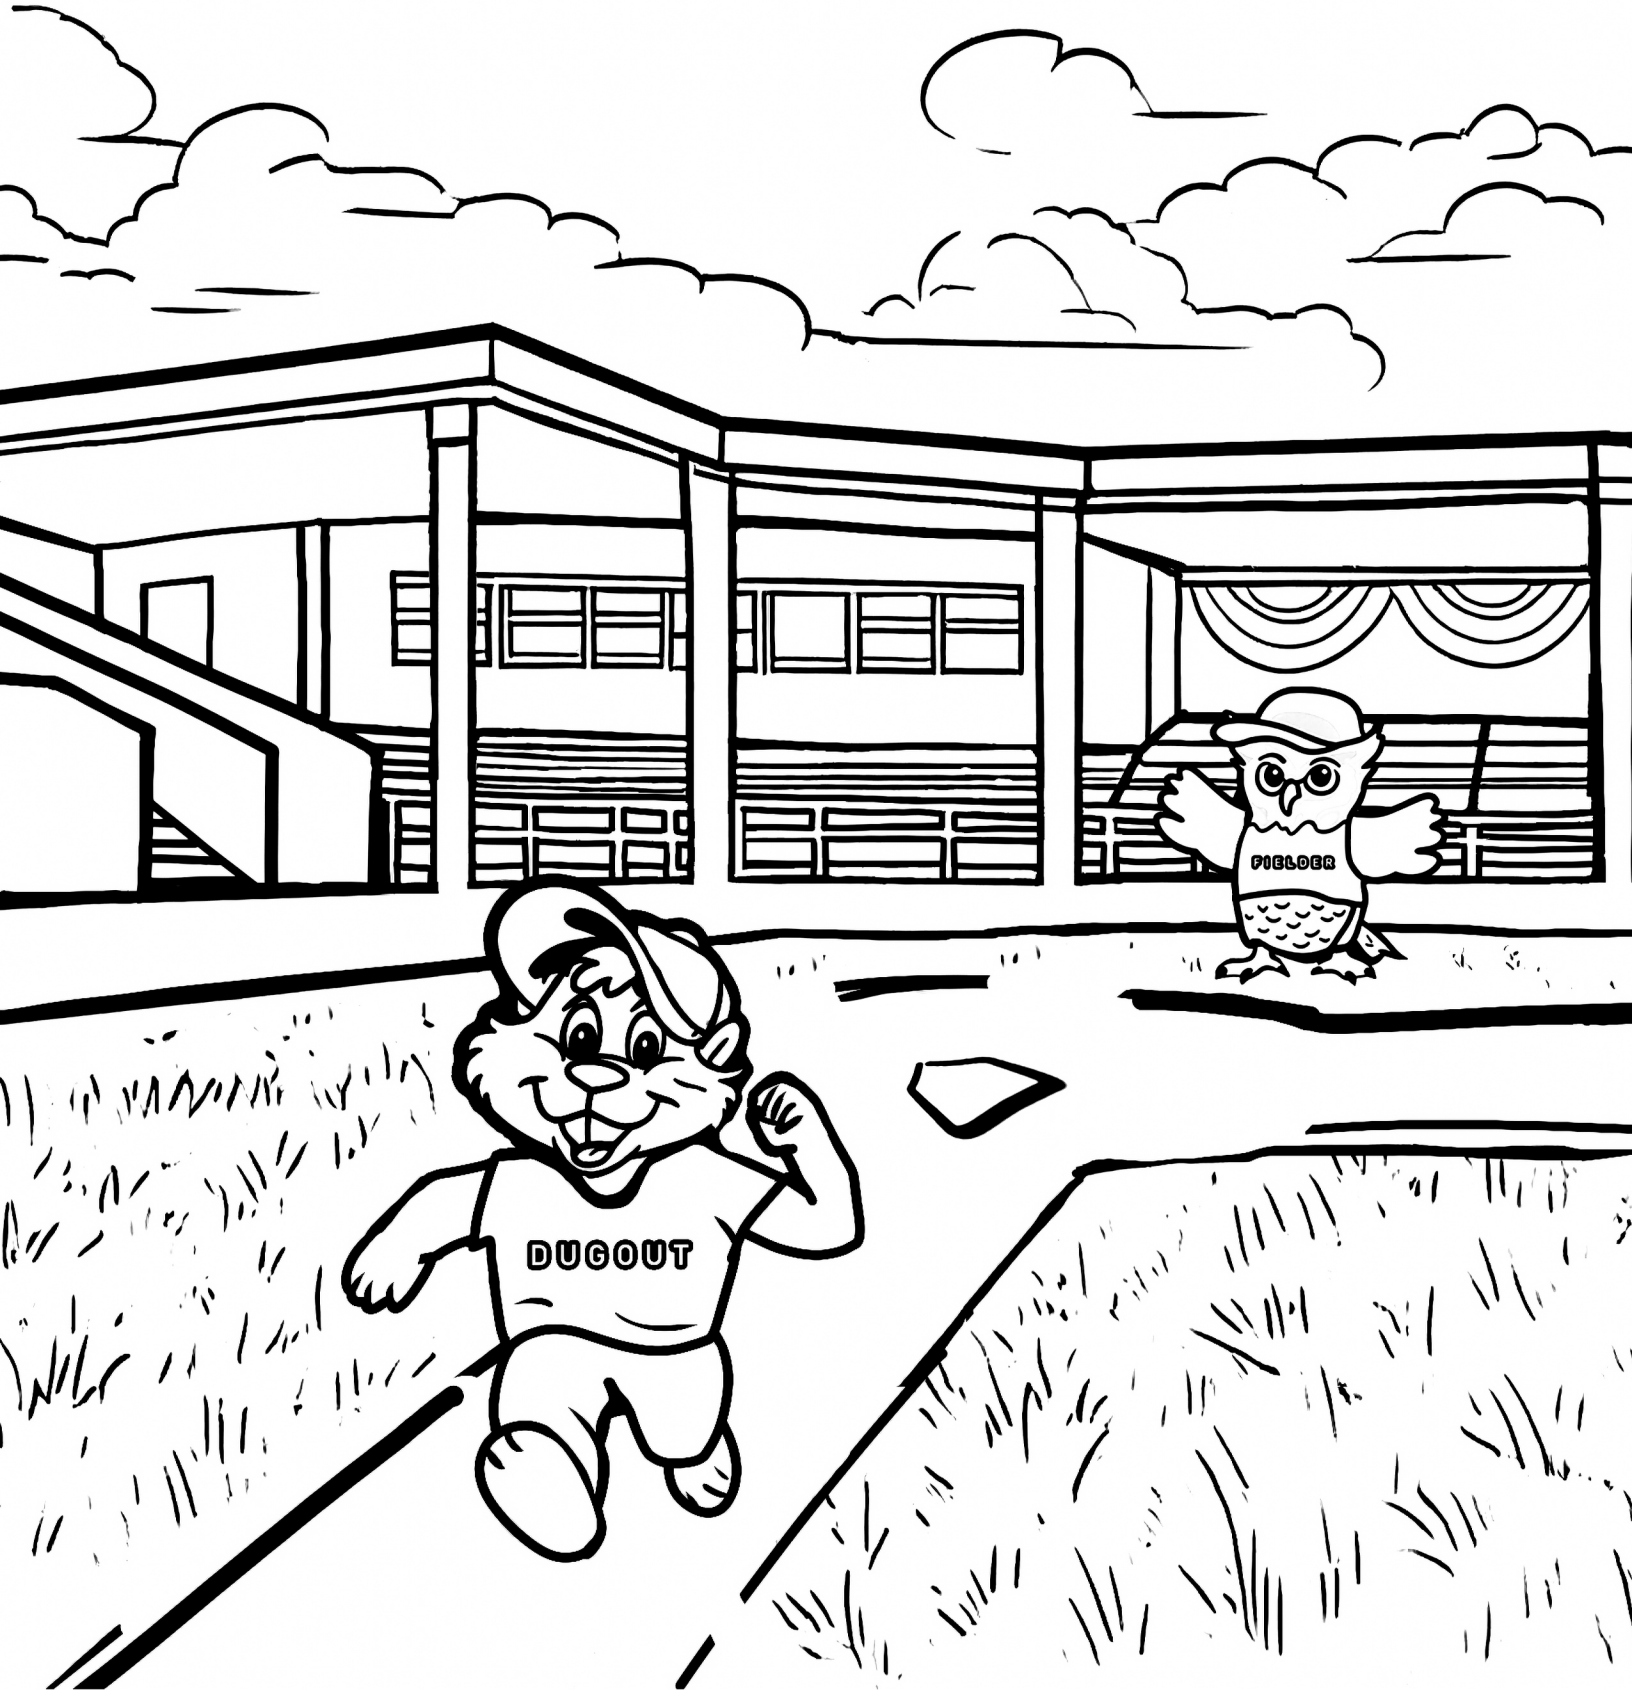

In Medicine Hat, Dugout and Fielder explored the world's tallest tepee—the Saamis Tepee! Standing beneath its towering frame, they marveled at its size and the beautiful artwork telling stories of Indigenous history.

Dugout and Fielder arrived at Spitz Stadium for the Junior Little League® Canadian Championship! As teams battled for a spot in the Junior Little League® World Series, Dugout helped as an umpire while Fielder found the perfect view—perched in a tree!

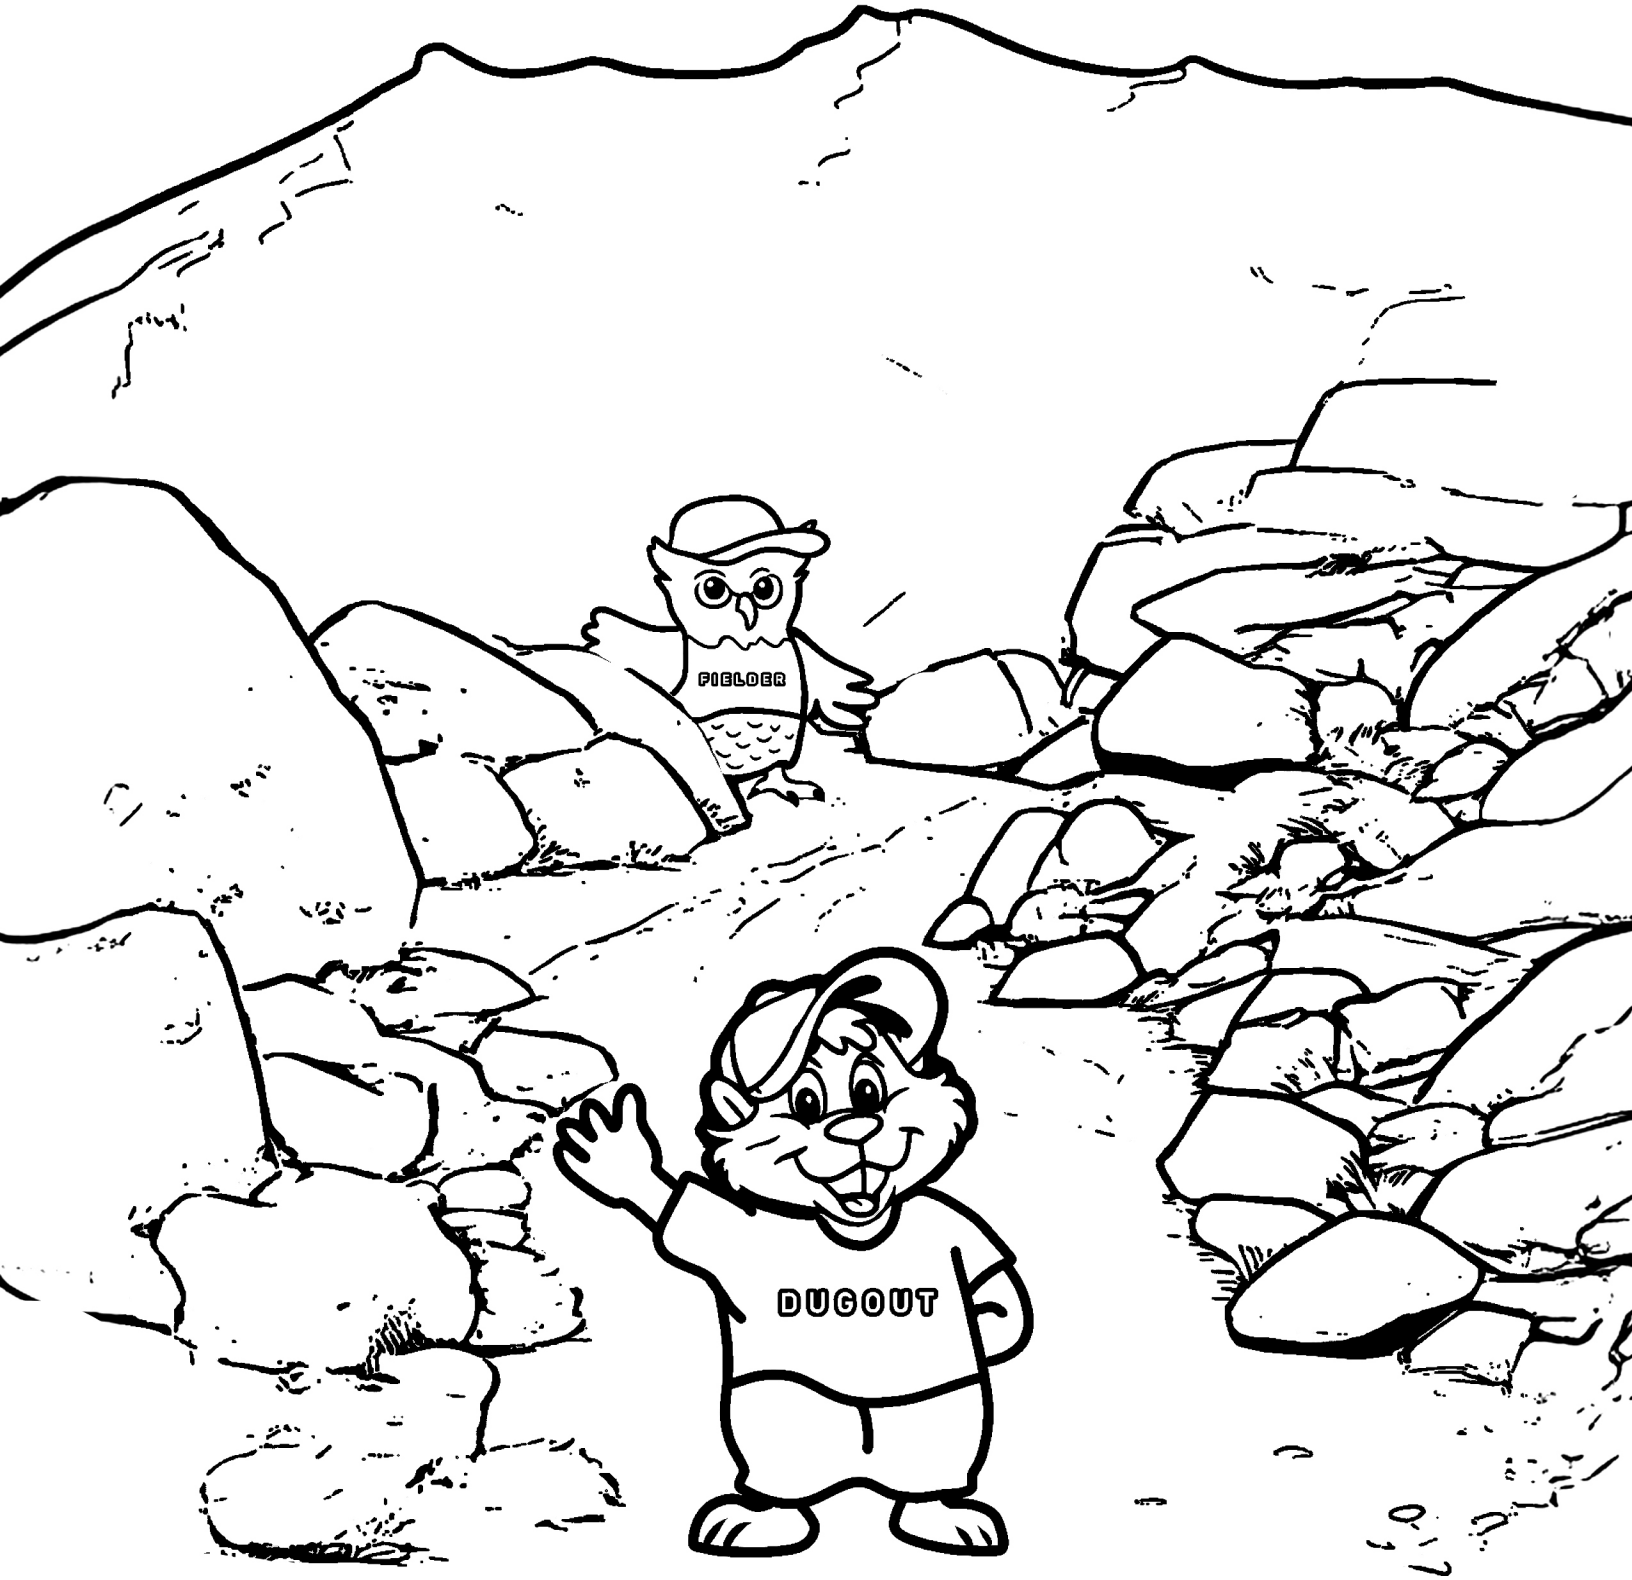

Before they left Lethbridge, Dugout decided to put his speed to the test at Canola Harvest Field, with Fielder there to cheer him on. The field was the site of the 2002 Little League® Canadian Championship and will host the tournament again in 2027!

In Waterton, Dugout and Fielder hiked up a mountain, excited to see what was waiting at the top. When they finally reached the summit, they looked out over the town below, with the lake shimmering in the distance and mountains surrounding them!

Dugout and Fielder visited Frank Slide, their last stop before Dugout headed home. Massive boulders covered the valley, a reminder of the rockslide that reshaped the land. They were amazed by the sheer size of some of the fallen rocks!

After an unforgettable adventure, Dugout said goodbye to Fielder and all of Alberta before arriving home in Williamsport, Pennsylvania, where he couldn't wait to get back to work and welcome all the teams and guests to this summer's Little League® World Series!
